I.—Supreme Court of Judicature, England:	£. s. d.	£. s. d.	£. s. d.	
Liability to Suitors - - -	2,764,744 1 10	436,921 8 5	2,327,822 13 5	This liability represents money belonging to suitors of the Court of Chancery, and standing to their credit in the books of the Pay Office of the Supreme Court. Prior to 1869 such money was invested in Government Securities, and the interest was charged with the payment of the salaries, &c., and expenses of certain officers of the court. In 1869, by the Act 32 & 33 Vict. c. 91, these charges were made payable out of the annual Votes of Parliament, and the Government Securities representing the cash book debt to suitors were transferred to the National Debt Commissioners and cancelled in 1870; the Consolidated Fund being thenceforward made liable for any claims arising in respect of the said debt to suitors. The nominal liability now remaining (2,327,824*l.* 6*s.* 11*d.*), which includes certain losses by fraud or error affecting suitors' money, for which the Consolidated Fund is contingently liable, is practically reduced to a considerable extent by the operation of investments of suitors' cash not required for current payments under the provisions of the Court of Chancery (Funds) Act, 1872; the assets now represented by these investments being considerably in excess of the liability in respect of them.
II.—Late Court of Bankruptcy, England:				
Liability to Bankrupts' Estates, &c.	1,434,499 9 7	478,346 13 9	956,152 15 10	The Stock and cash available to cover this liability were transferred to the National Debt Commissioners in 1869 and 1870, and the Stock, together with similar Stock purchased with the cash so transferred, was cancelled under the provisions of the Act 32 & 33 Vict. c. 91.

V.—Court of Bankruptcy, Ireland -	- - -	- -	35,041 17 10	Under the provisions of 20 & 21 Vict. c. 60, s. 295, certain stocks and moneys held by the late Court of Insolvent Debtors, Ireland, together with dividends declared on bankrupts' estates, but unclaimed for 12 months, have been transferred to this "Unclaimed Dividend Account." Under the provisions of 40 & 41 Vict. c. 57, s. 85, 23,500*l.* Stock, and 14,525*l.* 13*s.* 2*d.* cash, available to meet claims against the account, have from time to time been transferred to the National Debt Commissioners, and the stock, together with other Stock purchased with the cash so transferred, has been cancelled. The Consolidated Fund is consequently liable for claims which the cash balance, standing to the credit of the account, may be insufficient to meet.
VI.—Bank of England:				
(*a*) Dividend Account - -	1,000,000 - -	735,191 5 7	264,808 14 5	The Bank of England in 1791 and 1808 (under the provisions of the Acts 31 Geo. 3, c. 33 and 48 Geo. 3, c. 4), repaid to the Exchequer 1,000,000*l.*, a part of the large balances then remaining unclaimed in their hands out of moneys issued for the payment of dividends on the public debt. The total amount so repaid has been from time to time reduced by re-issues from the Exchequer (583,260*l.* 19*s.* 3*d.*), to meet claims for dividends falling payable, and by sums realised by the fractions of pence saved in the payment of dividends (151,93*l.* 6*s.* 4*d.*)
(*b*) South Sea Annuities, &c. -	39,787 12 5	- -	39,787 12 5	A similar (net) repayment of interest on South Sea Stock, &c., was made to the Exchequer by the South Sea Company between 1845 and 1852, under the provisions of 7 & 8 Vict. c. 80. The management of the annuities was subsequently taken over by the Bank of England, and the balance then in the hands of the South Sea Company was transferred to that bank
VII.—Bank of Ireland:

(*b*) Unclaimed Dividend Account.	2,616,894 19 2	2,427,606 12 10	189,288 6 4	Under 29 Vict. c. 11, 3,000,000*l.* of the Stock held by the National Debt Commissioners to meet the liabilities of the Unclaimed Dividend Account were cancelled, and the Consolidated Fund made liable for claims which the cash standing to the said account may be insufficient to meet. The liability has been reduced by the accumulation and re-investment of dividends on other Stock standing to the credit of the account.

PUBLIC LOANS.

THE accounts of the Local Loans, showing the amounts advanced, repaid, outstanding, and lost, were given in the Finance Accounts down to the year 1891–92 inclusive. They were transferred in 1892-93 from the Finance Accounts to the Accounts relating to the Local Loans Fund. This transfer was made, because when that fund was established in 1887 by the "National Debt and Local Loans Act, 1887" (50 & 51 Vict. c. 16), the Exchequer ceased to be directly concerned with loans to local authorities; and consequently the accounts relating to such loans belong more properly to the accounts of the Local Loans Fund than to the accounts of the Exchequer embodied in this volume.

There is, however, one loan outstanding which was made, not to any local authority, but to a foreign government, and consequently the liability for it was not assumed by the Local Loans Fund.

This loan, which was made to His Majesty the King of Sardinia, by virtue of the Acts 18 Vict. c. 17, and 19 & 20 Vict. c. 39, stood as follows on the 31st March 1895:

* In 1859–1864 the Imperial Government erected lighthouses in Fucas Straits and Esquimalt Harbour, undertaking one-half of the cost itself, while the Government of Vancouver Island undertook to repay the other half to the Imperial Government. The Government of Vancouver Island subsequently declined to meet its obligation. Vancouver Island afterwards entered the Canadian Union, and the Dominion Government has refused to recognise the obligation. This sum is, therefore, left outstanding, being due to the Imperial Government.

† The Debt of 105,000*l.* was reduced by a sum of 974*l.* 12*s.* 1*d.*, disbursed out of Colonial Funds, on account of the Imperial Government, for the expenses of the Western Pacific High Commission, up to 31st March 1879. Arrangements were made in 1892 for the repayment of the balance of the whole debt by Fiji to the Imperial Government by an annual instalment of one per cent. In 1894 the original liability of 11,364*l.* 6*s.* 7*d.* in respect of the Land Claims Commission was written off by the Treasury, and the annual instalments which had been repaid in respect thereof were transferred to the credit of the earlier debt of 105,000*l.*

‡ A further sum of 1,040*l.* 5*s.* 1*d.* was repaid in 1894–5, but was not transferred to the Exchequer until after 31st March 1895.

§ The grants to the settlers are for a period of 12 years, with no repayments during the first four years.

Note.—The Transvaal Government is liable to the Imperial Government for a debt of 250,000*l.*, bearing interest at the rate of 3½ per cent. per annum from 8th August 1884, and repayable by means of a 25 years' annuity. The half-yearly instalments of Sinking Fund and Interest were primarily applied in repayment of sums which had been advanced from the Treasury Chest Fund to meet expenditure in the Transvaal, but since the extinction of that liability they have been paid to the Exchequer (*see* Miscellaneous Revenue, page 26).

REPORT of the COMPTROLLER and AUDITOR GENERAL, prepared in pursuance of the Provisions of the Act 29 & 30 Vict. c. 39, s. 21.

Suez Canal Bonds.

1. THE account includes a final issue of 200,000 *l.* for the Suez Canal Exchequer Bonds, viz., 194,869*l.* 17*s.* 8*d.* for principal, and 5,130*l.* 2*s.* 4*d.* for interest; the former of these sums representing the total amount outstanding on 31st March 1893. The whole amount of Exchequer Bonds issued to provide for the payment of the purchase money of the Suez Canal Shares has now therefore been redeemed.

It is also to be noted that the sum of 198,829*l.* 2*s.* was received from the Egyptian Government during the year, and paid into the Exchequer, for interest on the purchase money of the shares.

From the Treasury Minute of 4th August 1894, of which a copy is appended, it appears that all receipts on account of the interest and dividends accruing on the Suez Canal Shares will continue to be paid to the Exchequer. (B.)

Suez Canal Drawn Shares.

2. I learn from a Treasury Letter to the Commissioners for the Reduction of the National Debt, of 1st November 1894, that in their Lordships' opinion all moneys received on account of Suez Canal Shares which have been and will in future be drawn for repayment should be treated as receipts on Capital Account. Instead, however, of applying such moneys directly in redemption of debt, which would appear to be the most satisfactory course, the Treasury propose for the present simply to pay them into the Exchequer in augmentation of the cash balance.

Naval Defence Fund.

3. A sum of 1,428,571 *l.* 8*s.* 6*d.* was issued to the Naval Defence Fund during the year, being the fifth payment under Section 2 of the Act 52 Vict. c. 8.

The total amount authorised is 10,000,000 *l.*, one-seventh of which sum was, under the Act, payable yearly up to and including the year ending 31st March 1896.

As, however, a sum of 3,146,000*l.* was borrowed for the Fund, and the annuity already paid into it amounts to 7,142,857*l.* 2*s.* 6*d.*, the total amount carried to the Fund, for the purpose of contract shipbuilding, is 10,288,857*l.* 2*s.* 6*d.*, which sum exceeds the amount authorised by 288,857*l.* 2*s.* 6*d.*

Under the Finance Act of 1894, the remaining instalments of the annuity have ceased to become payable, provision being made that the loan above mentioned, as also the loan of 2,600,000*l.* under the Imperial Defence Act, 1888, Part II., should be repaid by either the Old Sinking Fund or the New Sinking Fund.

The arrangements are explained in the Treasury Minute referred to in paragraph 1.

Miscellaneous Services.

4. The payments for Miscellaneous Services charged on the Consolidated Fund include 150,000*l.*, issued on account of the annuity under the Indian Army Pension Deficiency Act, 1885 (48 & 49 Vict. c. 67), and 40,000*l.*, in respect of the Exchequer Contribution under the Purchase of Land (Ireland) Act, 1891 (54 & 55 Vict. c. 48, s. 5).

Advances for Purchase of Bullion.

5. The balance of bullion advances outstanding on 1st April 1893 was 525,000*l.* Sums amounting to 625,000*l.* were advanced during the year, making a total of 1,150,000*l.* The amount of 785,000*l.* was repaid during the year, leaving a balance outstanding on 31st March 1894 of 365,000*l.*

Issues for Sinking Funds.

6. The total issues from the Exchequer on account of the Sinking Funds amounted to 1,869,057*l.* 12*s.* 3*d.*, composed as follows:—

	£.	*s.*	*d.*
Old Sinking Fund.			
Surplus revenue of the year 1892–93 - - - - -	20,011	10	2
New Sinking Fund.			
Balance available out of the fixed annual charge for the debt of 25,000,000*l.* - - - - - - - -	1,826,592	2	6
Sinking Fund Annuities - - - - - - - -	22,453	19	7
	£. 1,869,057	12	3

Of this sum, the amount of 1,600,845*l.* 16*s.* 2*d.* remained unapplied on 31st March 1894.

Bank Balances of Issues for Dividends, &c.

7. Statements of the Banks of England and Ireland are appended to the Account showing the amounts paid in the year out of the sums issued to them from the Exchequer for Interest of the Public Debt, and for Principal of Exchequer Bills and Bonds, and Treasury Bills; together with the balances of such issues remaining unpaid at the commencement and at the close of the year.

State of the National Debt.

8. Appended to this Report is a Statement in a summarised form, showing the position of the National Debt on 31st March 1894, compared with the figures at the close of the preceding financial year.

(A.)

From this Statement it will be seen that the total capital of the National Debt, which on 31st March 1893 was 671,042,842*l.* 2*s.* 10*d.*, was reduced during the year to 31st March 1894, by 5,638,548*l.* 0*s.* 10*d.* to the sum of 665,404,294*l.* 2*s.*

Other Liabilities.

In stating the liability of the country in respect of the Public Debt, certain other items should be taken into consideration. Thus, liabilities were outstandin g on 31st March 1894 in respect of the following :—

	£.
1. Savings Banks and Friendly Societies	398,953
2. Imperial Defence Act, 1888	611,783
3. Russian-Dutch Loan	473,353
4. Barracks Act, 1890	1,215,754
5. Telegraph Act, 1892	249,887
6. Ways and Means Advances	750,000

The Consolidated Fund was further liable in respect of certain funds of Suitors of the Supreme Court and other contingent claims (as shown on pages 98 to 101 of the Finance Accounts). The greater part of this liability may, however, be considered as nominal.

Certain Assets.

On the other hand, the following Assets may be treated as a substantial set-off to the total amount in which the State was indebted on 31st March 1894, viz. :—

	£.	£.
1. Exchequer Advances for Loans, unrepaid—		
(1.) Sardinian Loan	£. 614,772	979,772
(2.) Bullion	365,000	
2. Nominal value of Suez Canal Shares (which, however, are actually of much higher value)		3,532,040
3. Moiety of estimated capital value of Red Sea and India Telegraph Company's Annuity (repayable by Indian Government)		221,288
4. Present value of the payment by the Australian Colonies of 35,000*l.* per annum under the Imperial Defence Act, 1888		207,783
5. Exchequer Cash Balances at the Banks of England and Ireland		5,977,119

COPY OF TREASURY MINUTE, dated 4th August 1894.

THE Chancellor of the Exchequer calls the attention of the Board to Section 41 of the Finance Act, 1894 (57 & 58 Vict. c. 30), which amends the financial provisions of the Imperial and Naval Defence Acts.

I.—*Imperial Defence Act*, 1888, *Part II.*, 51 & 52 *Vict. c.* 32.

The amount authorised to be spent and borrowed under this Act was 2,600,000*l.* The whole of this sum has been raised by loan; and under the original proposals this loan was repayable out of the interest and dividends which commence to accrue this year on the Suez Canal Shares owned by Her Majesty's Government.

Under the Finance Act these receipts will be paid to Her Majesty's Exchequer, and the loan is to be repaid by either the Old Sinking Fund or New Sinking Fund.

The Board is aware that interest at the rate of 3 per cent. per annum on the amount which might be borrowed for Imperial Defence purposes was by the original Act charged on Army Votes; and in order to meet this charge in the current year a sum of 75,000*l.* was provided for in the Estimates of 1894–95. This provision will not be required; as under the Finance Act the interest payable on the loan is to be paid out of the permanent annual charge for the National Debt like the interest on the ordinary debt.

II.—*Naval Defence Act*, 1889, 52 & 53 *Vict. c.* 8.

The amount authorised to be spent on contract shipbuilding under the Act was 10,000,000 *l.* The expenditure, as the Board will recollect, was to be incurred by the 31st March 1894; but this period was extended by an Act of last Session (56 & 57 Vict. c. 45) to the 31st March 1895. The requirements of the Admiralty were to be met by an annuity of 1,428,571*l.* 8*s.* 6*d.* charged on the Consolidated Fund for seven years, and by money borrowed on the security of that annuity during the first five years.

	£.	s.	d.
The amount actually borrowed was - - - - - - - -	3,146,000	–	–
and, as five instalments of the annuity amounted to - - - - -	7,142,857	2	6
the total amount carried by the 31st March last to the Naval Defence Account, out of which the requirements of the Admiralty were to be met, was for the purpose of contract shipbuilding - - - - - -	10,288,857	2	6
thus exceeding the amount authorised to be spent, viz. - - - -	10,000,000	–	–
by - -	288,857	2	6

This sum, together with the remaining two instalments of the annuity, viz.:

payable in 1894–95 - - - - - - -	£.1,428,571	8	6	
and payable in 1895–96 - - - - - -	1,428,571	9	–	
				2,857,142 17 6
would under the original plan have been applied to pay off the loan of . -				£. 3,146,000 – –

Under the Finance Act the loan is to be repaid by the Old Sinking Fund or the New Sinking Fund. Accordingly, the remaining instalments of the annuity have ceased to become payable, and the amount, by which the total transfers to the Naval Defence Account (viz., 10,288,857*l.* 2*s.* 6*d.*) for contract and shipbuilding purposes may be found to exceed the expenditure actually incurred within the authorised sum of 10,000,000*l.*, is payable to the Exchequer.

The interest on the loan of 3,146,000*l.*, which has hitherto been charged on Navy Votes, is under the Finance Act likewise payable out of the permanent annual charge for the National Debt, and accordingly the provision of 70,000*l.* made in the Navy Estimates for 1894–95 for this purpose will not be required. The Board is aware that such provision was in accordance with the directions given in the letter to the Admiralty of the 10th December 1891 to repay the interest advanced out of balances in respect of the loan in the calendar year 1893. The interest amounted in the 12 months ending the 31st December 1893 to 70,636*l.* 2*s.* 11*d.*, and this sum, as well as all subsequent payments in respect of interest, will constitute a charge on the permanent annual debt charge.

Having

Having explained the effect of the provisions contained in Section 41 of the Finance Act, the Chancellor of the Exchequer proposes—

(1). That the National Debt Commissioners should be invited to apply at once, in the manner contemplated by the Act, the balance of the New Sinking Fund for 1893–94, amounting to 1,576,592*l.* 2*s.* 6*d.*, and to apply it, so far as practicable, in purchase of the Exchequer Bonds amounting to 696,000*l.*, and of Treasury Bills next falling due, which have been issued under the Naval Defence Act, and which are held by the National Debt Commissioners on account of Savings Banks.

(2.) That the balance (288,857*l.* 2*s.* 6*d.*) standing to the credit of the Naval Defence Account in excess of the authorised maximum expenditure on contract shipbuilding should be paid from that account into the Exchequer ; and

(3.) That the necessary adjustments connected with the payment of interest on the Imperial and Naval Defence Loans should in due course be made.

My Lords approve.

NOTE.

It must be borne in mind that the National Account is an *Exchequer* Account, and the figures of Revenue given in this Paper refer to the sums received into the *Exchequer*. The Revenue is actually collected day by day in all parts of the country, and is remitted to head-quarters, *i.e.*, to the Chief Officers of Customs, Inland Revenue, &c., in London and Dublin, whence it is transferred day by day in round sums to the *Exchequer*. The exact heads and items of Revenue to which the Cash received belongs are not known until later, and hence the amounts paid into the Exchequer do not and cannot exactly tally with the accounts of *net receipts*, which give the produce of each tax.

1895.

Statement of the Alterations which have been carried out in accordance with the Recommendations of the Select Committee of last Session on House of Commons (Accommodation). (See House of Commons Paper No. 268 of 1894.)

I.—KITCHENS.

The kitchen accommodation has been entirely remodelled (*a*) by building into the Commons Inner Court; (*b*) by absorbing the rooms formerly occupied by the Assistant Engineer; and (*c*) by utilizing and redistributing the space hitherto occupied by the kitchen department. The details of these arrangements are shown on the accompanying Plan No. 1.

II.—DINING ROOMS.

The former southern Members' dining room has been converted into a service room with four lifts working in direct communication with the kitchen; the grill from the large dining room has been removed into this room. The Members' large dining room has been restored by setting back the screen to the new wine room, which has been provided in the position shown on the plan, and by the removal of the grill. The main floor smoking room has been converted into an additional dining room. (*See* Plan No. 2.)

The room hitherto used as a ladies' dining room has been converted into a dressing room for Members, and equivalent dining accommodation for visitors has been provided by the conversion of one of the Ministers' rooms adjoining the Terrace, and of the Terrace reading room, into visitors' dining rooms. Another of the Ministers' rooms on the Terrace will be occupied as a room for the manager of the refreshment department in lieu of that formerly occupied by him, but now to be used as a Ministers' room. (*See* Plans 1 and 3.)

III.—SMOKING ROOMS.

The E. or Grand Committee room has been appropriated as a Members' smoking room; and the Terrace minor smoking room has been divided into two rooms. (*See* Plans No. 1 and 2.)

IV.—DRESSING AND BATH ROOMS.

The former ladies'-dining-room has been converted into a dressing room for Members, and seven cubicles have been fitted up for dressing in; the adjoining chamber has been converted into a hairdressers' room. On the opposite side of the passage four bath rooms have been constructed. (*See* Plan No. 3.)

V.—STANDING COMMITTEE ON LAW.

Arrangements have been made for the Committee to be accommodated in the large room at the north-west corner of Westminster Hall. The room will also be available when not required by Standing Committees for Members' private secretaries.

VI.—CONFERENCE ROOMS.

Accommodation having been provided outside the House for the Railway Commissioners, half of the space previously occupied by them will be at the service of Members for deputations or conferences, in addition to one of the former conference rooms. The second of the present conference rooms is to be used for typewriting. The Octagon Room is to be also available for conference purposes by arrangement with the Assistant Serjeant-at-Arms.

VII.—PRESS GALLERY, &c.

The following changes have been made in the accommodation assigned to the gentlemen of the press and their staff of messengers :—

(*a.*) A new entrance to the Reporters' Gallery has been constructed at each end of the gallery, in lieu of the present central entrance.

(*b.*) The kitchen has been enlarged by the addition of the tea room.

(*c.*) The upper corridor has been reserved for the staff, and a new w.c. added.

(*d.*) The two small smoking rooms have been united.

(*e.*) The "Times" staff has been transferred to the room hitherto occupied by the Chaplain.

(*f.*) The Assistant Serjeant-at-Arms' room has been converted into a new tea room, with a door opening on to the main corridor.

(*g.*) The Star Chamber room has been converted into a messengers' room, and means have been provided for transmission of messages between the room and the gallery.

(*h.*) The room hitherto occupied by the "Times" staff has been converted into a lavatory.

VIII.—OTHER ARRANGEMENTS.

The four rooms surrendered by the train-bearer have been allotted as follows: one to the Librarian in lieu of that at the foot of the Ladies' Gallery staircase, given up for a ladies' waiting room; one to the Chaplain in lieu of that surrendered to the Press; and two have been appropriated as Ministers' rooms in lieu of those given up in connexion with the revised dining accommodation for visitors.

Three rooms have been given up by the Railway Commissioners, half of which space, as before stated, has been set aside for conference rooms, and the remainder has been assigned to the Examiners of Private Bills.

The Assistant Serjeant-at-Arms moves into the Examiners' room. The Assistant Engineer has been moved into the Terrace rooms surrendered by the House of Lords.

A room for boy messengers, and additional accommodation for the police, have been provided.

The Post Office has been enlarged, by adding space from under the staircase leading to the gallery of the House, and additional windows have been opened to the lobby for the convenience of Members.

Better accommodation has been provided for the maid servants, occupying the old committee rooms, by dividing one of the rooms, and by the provision of a bath-room.

A barrier rail has been placed at the back of the bench in front of the strangers' seats, to facilitate the arrangements made for allowing strangers sitting under the gallery to remain during divisions.

The electric lighting in some of the principal rooms and library has been better distributed, with a view to diminishing the glare.

A glass and iron shelter has been erected at the external entrance to the Ladies' Gallery.

Electrical communication has been established, as an experiment, between the House and the new Smoking Room (late E. Committee Room).

Admiralty, 26 November 1894.

G. FitzGerald,
Accounting Officer.

REPORT of the COMPTROLLER and AUDITOR GENERAL on the ACCOUNT showing the Amount of Money raised and issued out of the Consolidated Fund, under the Provisions of Part I. of the IMPERIAL DEFENCE ACT (51 & 52 Vict. c. 32), the SECURITIES created in respect thereof, and the Amount expended for the purposes of the said Act, to the 31st March 1894.

Modification of charges in the Account, 1893–94.

1. THE Account of Expenditure for the year 1893–94 differs only from that for the year 1892–93, in respect of the sum of 745*l.* 5*s.* 8*d.*, which in 1892–93 was shown as an "unappropriated" charge for building and completing for sea the Imperial Defence Ships, and is now disposed of to the extent of 270*l.* 9*s.* by appropriation to the ships concerned, and to the extent of the balance 474*l.* 16*s.* 8*d.* by a withdrawal of charge from Imperial Defence, and an equivalent transfer to charge of Navy Normal Votes upon the surrender of certain stores for ordinary service.

Reduced excess, to be adjusted in 1894–95.

2. These transactions reduce the extra statutory expenditure, referred to in my Report of last year, to 3,502*l.* 16*s.* 10*d.*, and it will be seen by the Treasury Letter of 18th December 1894 appended, that the Account is to stand open for another year, in order that the excess in question may be wiped out by the return into store of the 4·7 ammunition supplied to the "Mildura."

Manner of adjustment for reconsideration of Public Accounts Committee.

3. The propriety of adjusting the extra statutory expenditure in this manner was fully dealt with in my Report last year, and discussed before the Public Accounts Committee, who inclined to the opinion that Parliament should be asked to vote the excess.

The Treasury, however, in their Minute of 18th October 1894, on the Second Report of the Committee, 1894, paragraphs 100, 101, express the hope that when the matter comes before the Committee on the Accounts for 1893–94, they will be able to agree with their Lordships in thinking that "as all the circumstances have been fully "explained to Parliament, the excess charge may be adjusted by returning the excess "issue of ammunition into store and charging the value to Vote 9." This point, then, still remains for final decision by the Committee.

Omission to re-charge in 1893–94 an admitted over credit of 1892–93.

4. I am not at present able to accept the reduced excess of 3,502*l.* 16*s.* 10*d.* as finally correct, seeing that a sum of 105*l.* 5*s.* 1*d.*, to which I called the attention of the Admiralty in 1892–93 as being over credited, and which was admitted to be an error, has not been adjusted in 1893–94; but a correction will be made by the Admiralty in the Accounts for 1894–95.

C. L. Ryan,
Comptroller General of the Receipt and Issue of Her Majesty's Exchequer, and Auditor General of Public Accounts.

Exchequer and Audit Department,
31 January 1895.

LETTER referred to in the foregoing REPORT.

(18122—94.)

Sir, Treasury Chambers, 18 December 1894.

I HAVE laid before the Lords Commissioners of Her Majesty's Treasury your letter of the 8th instant, forwarding an Account of the money expended in the year 1893–94, under Part I. of the Imperial Defence Act, 1888.

My Lords observe that the excess of 3,977*l.* 13*s.* 6*d.*, shown in the Account for 1892–93 as having been expended over the statutory provision of 850,000*l.*, has, by various re-adjustments, which have been made as the result of further investigation into the items making up the sum of 745*l.* 5*s.* 8*d.*, shown as "unappropriated" in that Account, been reduced by 474*l.* 16*s.* 8*d.* to 3,502*l.* 16*s.* 10*d.*

This excess will, My Lords understand, be more than wiped out by the return into store of the 4·7 ammunition supplied to the "Mildura;" but this adjustment cannot be shown in the present Account as the ammunition was not returned till after the close of the financial year 1893–94.

The Account must, therefore, stand open for another year.

The Account is returned herewith with some slight MS. emendations on pp. 3 and 4, which, if the Board of Admiralty see fit to adopt them, and to add the suggested explanatory note, will make the credit item of 474*l.* 16*s.* 8*d.* more readily intelligible.

Subject to these observations, My Lords approve of the Account for 1893–94 as now submitted to them.

I have, &c.
(signed) *Francis Mowatt.*

The Secretary to the Admiralty.

REPORT of the COMPTROLLER and AUDITOR GENERAL on the ACCOUNT, showing the Amount of Money Raised and Issued out of the Consolidated Fund, under the Provisions of Part II. of the IMPERIAL DEFENCE ACT (51 & 52 Vict. c. 32), the Securities created in respect thereof, and the Amount expended for the purposes of the said Act, to the 31st March 1894.

Issues from Consolidated Fund.

Issue of Treasury Bills.

1. The sum of 145,000*l.* was raised in 1893–94 by the issue of Treasury Bills, increasing the total amount so raised to 2,600,000*l.*, the sum authorised by the Imperial Defence Act. During the year, 37,000*l.* was issued out of the Consolidated Fund, and the further sum which remains to be issued under the authority of the Act amounts to 108,000*l.*

Issue from Consolidated Fund.

Expenditure.

Expenditure.

2. The expenditure up to the 31st March 1893 amounted to 2,367,436*l.* 4*s.* 6*d.*, but by the deduction of the sum of 3,344*l.* 13*s.* 4*d.*, withdrawn in accordance with the decision of the Public Accounts Committee (Second Report, 1894, paragraph 4), the net expenditure to that date was reduced to 2,364,091*l.* 11*s.* 2*d.* Adding to this sum the amount of the expenditure in 1893–94, viz., 99,484*l.* 19*s.* 8*d.*, the total expenditure is, as shown by the Account, 2,463,576*l.* 10*s.* 10*d.*, which leaves a balance of 136,423*l.* 9*s.* 2*d.* unexpended of the total amount of 2,600,000*l.* authorised for the purposes of the Act.

Balance unspent.

Royalties on Carriage Mountings.

Incidence of charge of Royalties.

3. On reference to paragraph 21 of the Report on the Army Appropriation Account for 1893–94, it will be seen that a question has arisen as to the correctness of the charge to Vote 9 of part of a payment of Royalties to Messrs. Armstrong & Co., which was made in respect of Carriage Mountings, the cost of which had been borne by the Imperial Defence Loan.

Separation of charge for Carriage Mountings from Royalties.

It appeared to be improper to account for this expenditure in such a manner as to involve a division of the charge for the Mountings between Army Vote 9 and the Loan, especially as in the case of Royalties paid on certain of these Mountings included in the Production Vouchers of the Ordnance Factories of previous years, both the cost of the manufacture and of the Royalties had been charged to the latter Account.

The correspondence on the subject is appended to the Report on the Army Appropriation Account (pages 149, 150), from which it appears that the Lords Commissioners of Her Majesty's Treasury concur with me in the opinion that the Royalties in question should have been charged in the same way as the Mountings themselves were, to the Imperial Defence Loan.

Treasury opinion.

Amount wrongly charged to Vote 9.

The amount involved, as far as can be at present ascertained, is 2,657*l.* 6*s.* 9*d.*, and if the view expressed in the Report above referred to be accepted, it will be necessary to transfer this sum from Army Vote 9, to the Imperial Defence Loan, the total expenditure upon which, to the 31st March 1894, will thus be increased to 2,466,233*l.* 17*s.* 7*d.*

Excess on Head 1.

Excess on Head 1.

The expenditure upon Head 1, Military Ports, Home, is in excess to the amount of 11,883*l.* 10*s.* 8*d.* of the sum appropriated to this Head in the Second Schedule of the Act. This excess is required to be sanctioned in the manner provided by Section 5 (2) of the Act.

Date of Closing the Account.

Proximate closing of Account.

4. In the Treasury Minute of 18th October 1894, on the Second Report of the Public Accounts Committee of 1894, it is stated that the date for closing this Account, as now fixed, is the 31st March 1895. Under this arrangement, the present Account will be the last but one of the service, and the expenditure will have extended over seven years instead of the three which were contemplated by the Second Schedule of the Act.

REPORT of the COMPTROLLER and AUDITOR GENERAL.

Exchequer and Audit Department,
Somerset House, London, W.C.,
4 July 1895.

My Lords,

I HAVE the honour to transmit to your Lordships, to be laid before the House of Commons, in pursuance of the Act 29 & 30 Vict. c. 23, s. 11, a copy of the Account of the Receipt and Disposal of Income, in respect of the Customs Duties and Insular Receipts of the Isle of Man, for the year ended 31st March 1895, as rendered by the Accountant and Controller General of Her Majesty's Customs.

To this Account is appended a copy of the Passenger Tax and Harbour Dues Account for the same period.

I have also the honour to transmit, for the purpose of being laid before Parliament, a copy of the Abstract Cash Accounts of the Isle of Man Passenger Tax and Harbour Dues, and of the Accumulated Fund, for the year 1894-95, which have been rendered to this Department by the Treasurer of the Isle of Man.

I have further to state that the Accounts of the Isle of Man were in the course of last year submitted to a local test examination, and that the results of this examination have, on the whole, proved satisfactory.

I would point out however, with reference to the final paragraph of my Report of last year, that at the date of the local test (July 1894), Inventories of Plant had not then been opened at some of the Harbour Works, and also that certain articles which had been supplied to the Peel Outer Works were found to have been omitted from the Plant Inventory in respect of these works.

I have, &c.

COPIES of any TREASURY MINUTES relating to the Remuneration of the LAW OFFICERS of the CROWN.

(1.)—TREASURY MINUTE, dated 12th August 1875.

THE Chancellor of the Exchequer adverts to the Treasury Minute of the 14th December 1871, in which were laid down the terms whereon the Law Officers of the Crown should thenceforward be remunerated for their services.

He informs the Board that, in consequence of certain difficulties which have subsequently arisen as regards the application of those terms, Her Majesty's Government has agreed to the following resolutions respecting the remuneration of the Attorney and Solicitor General, in lieu of those in the said Minute of 14th December 1871; that is to say:—

I. The Law Officers shall receive salaries to be annually voted by Parliament, viz., the Attorney General, 7,000*l.* a year, and the Solicitor General, 6,000*l.* a year for all business transacted by them as Law Officers except contentious business as hereinafter defined.

II. The Law Officers shall receive fees for contentious business according to the ordinary professional scale.

III. Contentious business shall be taken to mean briefs in actions, or other proceedings, whether civil or criminal, in any court of justice in England, or before a Committee of either House of Parliament, or before the Privy Council, or any Commissioners, referees, or arbitrators. Consultations and conferences on such briefs. Advising, whether on case stated, or in consultation or conference, as to instituting any proceeding whether civil or criminal, in any such court of justice, or before any such committee as appointed, or before the Privy Council, or any Commissioners, referees, or arbitrators, or as to defending any such proceeding, whether threatened or pending, settling pleadings and evidence for, or in any such proceeding.

IV. No complimentary brief shall hereafter be delivered to any Law Officer, nor shall any payment be made to him by any public department, for contentious business except when he is expected to perform actual personal service. But this regulation is not intended to interfere with the right of the Attorney General to require a brief to be sent to him in any case which he has desired to conduct personally.

V. No fee shall hereafter be paid to any Law Officer for non-contentious business, and any fees which may be paid to him by persons unconnected with the public service for any non-contentious business done by him as Law Officer, shall be accounted for by him to the Lords Commissioners of Her Majesty's Treasury, and paid as they may direct.

My Lords approve; and hereby cancel the resolutions included in their said Minute of the 14th December 1871.

Let a copy of this Minute be sent to each of the present Law Officers, and to their successors as they are from to time appointed.

(2.)—Treasury Minute, dated 8th December 1889.

The Chancellor of the Exchequer calls attention to the Treasury Minute of 12th August 1875, defining the terms of the future remuneration of the Law Officers of the Crown.

He states that while it has not, in general, been found difficult to apply these terms in accordance with the views of successive Law Officers, he is of opinion that experience of the system has now rendered it possible to define with greater clearness certain points on which questions have from time to time arisen.

He therefore recommends, for the approval of the Board, the following amended resolutions instead of those contained in the Minute of 12th August 1875.

I. The Law Officers shall receive salaries to be annually voted by Parliament, viz., the Attorney General 7,000*l.* per annum, and the Solicitor General 6,000*l.* per annum, to cover all business of whatever sort done by them as Law Officers for any department of Government, except the business specially described below as contentious business.

The salaries shall include all clerks' fees in business other than contentious business.

II. Contentious business, in respect of which fees shall be paid to the Law Officers, shall be such business only as relates to proceedings, civil or criminal, which have actually been commenced, and in which the Government is, or represents the plaintiff, defendant, or prosecutor.

III. No complimentary brief shall be delivered to a Law Officer, nor shall any fee be paid unless he is expected to appear and conduct the case. But this regulation shall not interfere with the right of the Attorney General to require a brief to be sent to him in any case which he has desired to conduct personally.

IV. No fee shall be paid to any Law Officer on behalf of the Government or of any public department for business other than contentious business as above described, and any fees which may be paid to him by persons unconnected with the public service for business other than contentious done by him as Law Officer shall be accounted for by him to the Board of Treasury, and shall be paid in such manner as that Board shall direct.

V. For contentious business as above described the Law Officers shall receive fees according to the ordinary professional scale, meaning thereby the scale of fees which a Queen's Counsel of average standing in the profession might properly accept from a private client, subject to the condition that the maximum fee payable shall be, Brief, 150 guineas, Refresher, 30 guineas. If a Law Officer is required to appear out of London as Counsel for a Government Department, he shall receive a special fee not exceeding 100 guineas in addition to the fee on his brief.

In cases of exceptional importance or difficulty the Treasury Solicitor may allow such an increased fee on the brief as may be sanctioned by the Chancellor of the Exchequer.

VI. Any question which may arise as to the application of any of the above resolutions shall be submitted to the Chancellor of the Exchequer, whose decision shall be final.

My Lords approve; and hereby cancel the resolutions contained in their Minute of 12th August 1875.

Let a copy of this Minute be sent to each of the present Law Officers, and to their successors, as they are from time to time appointed.

(3.)—Treasury Minute, dated 5th December 1892.

The Chancellor of the Exchequer calls attention to the Treasury Minute of 12th August 1875, defining the terms of the future remuneration of the Law Officers of the Crown.

He states that while it has not, in general, been found difficult to apply these terms in accordance with the views of successive Law Officers, he is of opinion that experience of the system has now rendered it possible to define with greater clearness certain points on which questions have from time to time arisen.

He states that an arrangement has been made limiting the business in which a Law Officer may appear as counsel for a private client to cases in the House of Lords, and before the Judicial Committee of the Privy Council.

He therefore recommends, for the approval of the Board, the following amended resolutions in place of those contained in the Minute of the 20th July 1886:—

I. The Law Officers shall receive salaries to be annually voted by Parliament, viz.: the Attorney General 7,000*l.* per annum, and the Solicitor General 6,000*l.* per annum, to cover all business of whatever sort done by them as Law Officers for any department of Government, except the business specially described below as contentious business.

The salaries shall include all clerks' fees in business other than contentious business.

II. Contentious business, in respect of which fees shall be paid to the Law Officers, shall be such business only as relates to proceedings, civil or criminal, in which the Government is, or represents, the plaintiff, defendant, or prosecutor.

III. No complimentary brief shall be delivered to a Law Officer, nor shall any fee be paid, unless he is expected to appear and conduct the case. But this regulation shall not interfere with the right of the Attorney General to require a brief to be sent to him in any case which he has desired to conduct personally.

IV. No fee shall be paid to any Law Officer on behalf of the Government or of any public department for business other than contentious business as above described, and any fees which may be paid to him by persons unconnected with the Public Service for business other than contentious done by him as Law Officer, shall be accounted for by him to the Board of Treasury, and shall be paid in such manner as that Board shall direct.

V. For contentious business as above described, the Law Officers shall receive fees according to the ordinary professional scale, meaning thereby the scale of fees which a Queen's counsel of like standing in the profession might reasonably expect from a private client. If a Law Officer is required to appear out of London as counsel for a Government department, he shall receive a special fee, not exceeding 100 guineas, in addition to the fee on his brief.

VI. The Law Officers shall not appear as counsel for a private client in any case except in the House of Lords and before the Judicial Committee of the Privy Council, and upon retainers delivered before acceptance of office.

VII. Any question which may arise as to the application of any of the above resolutions shall be submitted to the Chancellor of the Exchequer, whose decision shall be final.

VIII. This Minute is to relate back to the date of the appointment of the present Law Officers.

My Lords approve; and hereby cancel the resolutions contained in their Minute of 20th July 1886.

Let a copy of this Minute be sent to each of the present Law Officers, and to their successors, as they are from time to time appointed.

(*See* House of Commons Paper, No. 62 of 1893.)

(4.)—Treasury Minute, dated 12th January 1893.

Minute creating a Permanent Clerical Staff for the Law Officers of the Crown.

With reference to the Treasury Minute of the 5th ultimo, fixing the future remuneration of the Law Officers of the Crown, and limiting the business in which they may appear as counsel for private clients, my Lords have before them proposals for providing the Law Officers with an office and a permanent clerical staff.

Their Lordships are aware that references by public departments to the Law Officers have of late years become much more frequent, and that the effect of the recent Minute will no doubt be still further to increase them. They feel, therefore, that it has become important to ensure a complete record of the opinions given by successive Law Officers, and to establish, as far as possible, uniformity of practice in the manner in which papers are submitted to and dealt with by them.

In these circumstances my Lords assent to—

1. The provision at the Royal Courts of Justice of official accommodation for a staff of four clerks.

2. The appointment of—

A permanent clerk at a salary of 500*l.* a year;
" " " 300*l.* "

and to an annual allowance of 250*l.* to the Attorney General, and of 200*l.* to the Solicitor General, for personal clerks.

As regards the two permanent clerks it is necessary that they should possess Civil Service certificates, and, in view of the peculiar nature of the duties and of the conditions under which they must be performed, my Lords will raise no objection to the issue of such a certificate under Clause VII. of the Order in Council of 4th June 1870 to the person appointed, if he shall have been a barrister or a solicitor, or if he have completed his articles in a solicitor's office, or, finally, if at the time of his appointment he is serving as a personal clerk to a Law Officer of the Crown.

In the case of a person not fulfilling any of the above conditions it will be necessary that he shall pass an examination in such subjects, and be within such limits of age as may be agreed between the Law Officers and the Civil Service Commissioners.

The duties to be performed by the clerical staff generally and by each of them shall be such as the Law Officers may from time to time determine, and shall include all clerical work of correspondence, record, *précis*, drafting, and copying connected with the Law Officers' Department.

The clerks will be liable to attend at the office, in chambers, or at the House of Commons whenever and during such hours as the Law Officers shall direct. They will be subject to the same regulations as to leave, sick leave, holidays, and discipline as clerks of the permanent Civil Service of the State receiving the same or not larger salaries.

The present Attorney General will appoint the first two permanent clerks, and the Attorney General for the time being will appoint to any vacancy which may happen in either of these clerkships during his tenure of office.

The allowance for a personal clerk will be payable to each Law Officer from the date on which he receives his patent; the salary of each permanent clerk will commence from the date on which he receives his appointment.

In the case of the first two permanent clerks the appointment shall date, and the respective salaries shall be paid, from the day on which they commenced to perform their duties.

(*See* House of Commons Paper, No. 62 of 1893).

(5.)—Treasury Minute, dated 29th June 1894.

My Lords read again their Minute of the 5th December 1892, relating to the remuneration of the Law Officers of the Crown, and also their Minute of the 12th January 1893, creating a permanent Staff for the Law Officers.

The Chancellor of the Exchequer states to the Board that the question of the remuneration of the Law Officers has again received consideration in view of the further experience gained since the present system has been in operation, and that new arrangements have been made as regards both the method of remuneration of the Law Officers and their right to private practice during their tenure of office.

Those arrangements are embodied in the following Resolutions, which the Chancellor of the Exchequer recommends for the approval of the Board in place of those contained in the Minute of the 5th December 1892 :—

I. The Law Officers shall receive salaries, to be annually voted by Parliament, viz. :—

The Attorney General, £. 10,000 per annum ;

The Solicitor General, £. 9,000 per annum.

II. These salaries are to cover all business of whatever sort done by the Law Officers, as such, for or on the instructions of any Department of Government, including contentious business as defined in the Treasury Minute of 5th December 1892.

III. These salaries shall include all clerks' fees ; but annual allowances shall be made for personal clerks of—

£. 400 to the Attorney General;
£. 300 to the Solicitor General.

These allowances will be payable to each Law Officer from the date on which he receives his Patent.

IV. Any fees which may be paid to a Law Officer by persons unconnected with the public service for business done by him as Law Officer shall be accounted for by him to the Board of Treasury, and shall be paid at such times and in such manner as that Board may direct.

V. The Law Officers shall not undertake business of any kind on behalf of private clients ; and any Law Officer shall on appointment to office return any papers which have been placed before him or any briefs which have been delivered to him on behalf of private clients.

VI. Any question which may arise as to the application of any of the above Resolutions shall be submitted to the Chancellor of the Exchequer, whose decision shall be final.

VII. This Minute shall take effect from 2nd May 1894, and shall apply to every Law Officer appointed after that date.

My Lords approve ; and hereby cancel the Resolutions contained in their Minute of the 5th December 1892.

Let a copy of this Minute be sent to the Solicitor General, and the Treasury Solicitor.

Let copies be laid before Parliament.

(6)—Treasury Minute, dated 22nd August 1894.

Law Officers of the Crown in Scotland (Remuneration).

The Chancellor of the Exchequer states to the Board that he has been in communication with the Secretary for Scotland upon the subject of the remuneration of the Law Officers for Scotland and of the Regulations under which they perform their official duties.

The Chancellor of the Exchequer is of opinion that the existing arrangements require alteration in the interests of the public service, and he recommends for the approval of the Board the following Resolutions :—

I. That the Lord Advocate and the Solicitor General for Scotland shall receive salaries to be annually voted by Parliament, viz. :—

The Lord Advocate General, £. 5,000 per annum ;
The Solicitor General - £. 2,000 per annum.

II. These salaries are to cover all business of whatever sort done by the Lord Advocate or the Solicitor General in virtue of their offices, or for, or on the instructions of any Department of Government, including contentious business ; that is to say, business relating to proceedings, civil or criminal, in which the Government is or represents the plaintiff, defendant, or prosecutor.

III. In addition to the salaries above mentioned annual allowances shall be made for personal clerks of—

£.400 to the Lord Advocate ;
£.100 to the Solicitor General.

IV. The Lord Advocate shall attend in London throughout the Parliamentary Session, and the Solicitor General shall attend when and as often as his official duties make his presence in London desirable.

V. The Lord Advocate and the Solicitor General shall be entitled to undertake such business on behalf of private clients as may be consistent with the proper discharge of their public duties.

VI. Any question which may arise as to the application of any of the above Resolutions shall be submitted to the Secretary for Scotland, whose decision shall be final.

These Resolutions shall take effect from 1st July 1894, and shall apply to the present Lord Advocate and Solicitor General, and to every Law Officer appointed after that date.

My Lords approve.

REPORT of the COMPTROLLER AND AUDITOR GENERAL on the ACCOUNTS of the LOCAL LOANS FUND, for the Year ended 31st March 1894, in pursuance of the NATIONAL DEBT AND LOCAL LOANS ACT, 1887 (50 & 51 Vict. c. 16).

CAPITAL ACCOUNT.

Principal of Loans advanced and repaid.

1. THE total amount of the Loans advanced to the Lending Departments during the year 1893–94 was 2,622,783*l.*, whilst the principal of Loans repaid by them during the same period was 2,217,638*l.* 19*s.* 4*d.* The advances, therefore, exceeded the repayments by 405,144*l.* 0*s.* 8*d.* The balance in hand at the commencement of the year was insufficient to provide for the excess of advances over repayments, and the necessary provision was therefore made by the sale of 385,534*l.* 9*s.* 9*d.* Consols, which realised 378,294*l.* 11*s.* 1*d.* This sale left a balance of securities on the Investment Account of 30,860*l.* 13*s.* 2*d.* Consols, which amount has since been sold.

Annuity in repayment of advances lost.

2. A sum of 9,095*l.* 17*s.* was received under Section 15 of the National Debt and Local Loans Act, 1887. This was the proportion applicable to Capital in respect of a Parliamentary Grant of 11,868*l.*, voted under Class VII., Vote 6, 1893–94, for the purpose of repaying in 10 years the sum of 101,235*l.* written off the assets of the Local Loans Fund under the Public Works Loans Act, 1892 (55 & 56 Vict. c. 61), in respect of the reclamation of Clare Slob.

Transfer of Surplus Income to Capital Account.

3. The surplus income of the year 1892–93, amounting to 4,312*l.* 4*s.* 3*d.*, has been transferred to the Credit of the Capital Account in accordance with the provisions of Section 12 of the National Debt and Local Loans Act, 1887 (50 & 51 Vict. c. 16).

Cash Balance on Capital Account.

4. The Cash Balance on the Capital Account on the 31st March 1894, amounted to 177,410*l.* 16*s.*

INCOME ACCOUNT.

Annuity in repayment of advances lost.

5. Included in the sum of 10,518*l.* 2*s.* 5*d.*, interest on investments, is the sum of 2,772*l.* 3*s.*, which represents the proportion applicable to Income of the annuity granted to reimburse the Local Loans Fund for the sum written off in respect of Clare Slob, alluded to in paragraph 2.

Restitution Annuity.

6. The Restitution Annuity of 130,000*l.* paid over to the National Debt Commissioners, in pursuance of Section 11 of the Act, has been applied by them in the purchase and cancellation of 131,754*l.* 0*s.* 3*d.* Consolidated 2¾ per Cent. Annuities.

Expenses of Management.

7. Payments were made during the year of 11,062*l.* 15*s.* 6*d.* to the Bank of England, and 426*l.* 4*s.* 4*d.* to the Bank of Ireland, in respect of the expenses of management of the Fund.

Expenses of Administration.

8. The expenses of administration of the Fund during the year amounted to 37,134*l.* 5*s.* 4*d.*, and were incurred by the following Departments:—

	£.	*s.*	*d.*
Treasury	400	–	–
Exchequer and Audit Department (Cost of Audit)	1,096	6	6
National Debt Office	307	–	–
Public Works Loan Commissioners	4,692	19	6
Fishery Board for Scotland	76	2	6
Commissioners of Public Works (Ireland)	16,477	–	–
Irish Land Commission	14,000	–	–
Inland Revenue	84	16	10
£.	37,134	5	4

These expenses show a considerable reduction as compared with those of the previous year, which amounted to 40,096*l.* 16*s.*

Cash Balance on Income Account.

9. After defraying the cost of these expenses there remained a surplus of Income over Expenditure of 18,969*l.* 8*s.* 5*d.*, which is available for transfer to the Capital Account.

Local Loans Stock Account.

10. No addition has been made within the period of the Account to the Local Loans Stock, which amounts to 40,953,767*l.* 14*s.* 5*d.* Local Loans. Amount of Stock.

Balance Sheet.

11. The Balance Sheet includes a sum of 44,457*l.* 4*s.* 7*d.* under a heading, which appears for the first time, of "Profit on Investments realised." Profit on Sale of Consols.

This amount represents the gain realised in respect of the various purchases and sales of securities which have taken place since the Local Loans Fund was established; and the amount has been treated in the Balance Sheet as forming a part of the Capital Account.

12. Under the provisions of the Act 56 & 57 Vict. c. 40, Loans amounting to 67,235*l.* 10*s.* 6*d.* were authorised to be written off from the assets of the Local Loans Fund. This amount, however, proved to be 7*l.* in excess of the sums actually advanced, and the amount written off within the period of this Account is consequently 67,228*l.* 10*s.* 6*d.* Loans written off Local Loans Fund.

The following are the Loans making up this amount:—

	£.	s.	d.
Public Works Loan Commissioners:			
Mevagissey Harbour	22,000	–	–
Commissioners of Public Works in Ireland:			
(*a*) Land Improvement Loans	1,430	3	7
(*b*) Land Law Act, 1881, Loans	1,366	19	9
(*c*) Arterial Drainage Loans	1,318	3	–
(*d*) Railway Loan: Waterford and Wexford (out of 53,000*l.* advanced).	38,000	–	–
(*e*) Clare Slob Reclamation	59	2	4
Irish Land Commission:			
Loans under Land Law Act, 1881	1,829	18	4
Fishery Board for Scotland:			
Loans under the Crofters Holdings Act	1,224	3	6
	£. 67,228	10	6

The amount written off on account of Clare slob represents the closing transaction on this Loan.

13. In the Balance Sheet the amount of 67,228*l.* 10*s.* 6*d.* has been treated as an asset "to be provided by Parliament." I may mention that provision was made in the Estimate and Supplementary Estimate for the year 1894–95 under Vote 5 of Class VII. for the repayment to the Local Loans Fund of the actual amounts written off in respect of all the Loans above mentioned, with the exception of the Mevagissey Harbour Loan (22,000*l.*) and the Waterford and Wexford Railway Loan (38,000*l.*). Provision has been made for repayment of these Loans by terminable Annuities of 2,504*l.* and 4,325*l.* respectively, under the provisions of the Act 50 & 51 Vict. c. 16, s. 15 (3). Provision for repayment to Local Loans Fund.

Detailed Statement of Loans.

Exclusion from Statement of Assets of sums which are not likely to be recovered.

14. In my Report on the Account for 1892–93 I drew attention to the fact that in the preparation of these statements a divergency of practice existed with regard to the treatment of the interest on loans of which the principal had been written off the assets of the Local Loans Fund under the provisions of the Public Works Loans Act of 1887 (50 & 51 Vict. c. 37). In the statements of loans advanced by the Public Works Loans Commissioners, England, the accumulations of arrears of interest on the loans thus written off were still retained under the heading "Balance of Interest outstanding;" while from the corresponding statements furnished by the Commissioners of Public Works, Ireland, such accumulated arrears were excluded.

In the correspondence which followed, the views which I expressed were concurred in by the Treasury, who directed that the statements furnished by the Public Works Loan Commissioners, England, should no longer include as assets these amounts of interest, which there is no reasonable prospect of recovering. The Lending Departments, however, are required to keep a record in their books for the purpose of maintaining any claims against the debtors which may prove to be capable of enforcement.

Detailed Statement of Current Arrears.

Athenry and Ennis Railway Company

15. In my Reports on the Local Loans Fund Accounts for the years 1887-88 to 1891–92 I drew attention each year to the fact that the claim by the Public Works Loan Commissioners, England, for a sum of 9,000*l.*, arrears of interest due by the Athenry and Ennis Railway Company, had been remitted by the Treasury, but that the sanction of Parliament had not been obtained.

The Public Works Loans (No. 3) Act, 1893 (56 & 57 Vict. c. 65), provided that "The Public Works Loan Commissioners may accept in full discharge of the said "Loan of 59,000*l.* such a sum as will, after allowing for the payments already made, "discharge it with interest at the rate of 4 per cent. per annum; and the sum shall "be calculated in the same manner as if the Loan had borne interest at the rate of "4 instead of 5 per cent. per annum, and as if the payments already made had been "applied first in payment of interest at such reduced rate, and the balance in "reduction of the principal. * * * The interest so remitted shall be deemed to "be a free grant by Parliament."

In view of the above provisions the amounts due by the Company have been re-calculated, and, as the result of the re-calculation that has been made, the whole sum of 9,000*l.* due in respect of arrears of interest under the original conditions of the Loan has been cancelled, and the sum due in respect of principal has been reduced by 7,076*l.* 11*s.* 4*d.*, leaving a net balance of 18,500*l.* 17*s.*, which has been repaid to the Public Works Loan Commissioners, together with a sum of 387*l.* 4*s.* 11*d.*, interest thereon at 4 per cent. from 27th March to 4th October 1893, by the Waterford and Limerick Railway Company, by whom the undertaking of the Athenry and Ennis Railway Company has been acquired.

Statement of Arrears.

16. Apart from the sums which have been written off as irrecoverable, the sums over-due to the various Lending Departments are stated to be as follows, viz.:—

Public Works Loan Commissioners, England:

	£.	s.	d.
Principal due on 31st March 1893 - - - - -	206,123	9	4
Principal due on 31st March 1894 - - - - -	168,684	8	4
Decrease - - -	£. 37,439	1	–

This decrease is largely attributable to the transactions in connection with the Athenry and Ennis Railway Company, referred to in the previous paragraph.

	£.	s.	d.
Interest due on 31st March 1893 - - - - - -	200,929	18	10
Interest due on 31st March 1894 - - - - - -	69,363	9	4
Decrease - - -	£. 131,566	9	6

This

This large decrease does not, however, imply a corresponding gain to the Local Loans Fund, being principally due to the exclusion of interest on bad debts to which I have previously drawn attention in paragraph 14 of this Report.

The principal items included in the current arrears are the following :—

(*a*) Falmouth Docks.

	£.	*s.*	*d.*
Principal outstanding on 31st March 1894 - -	46,015	–	–

In answer to inquiries I am informed that "the Public Works Loan Board took "possession of this undertaking in 1867, and have from time to time, with the concur- "rence of the Treasury, expended thereon sums amounting in all to 37,250*l.*, which "advances (except only 2,834*l.* 1*s.* 11*d.*) have been repaid with all interest to 30th "June 1894 from the income of the undertaking; and, in addition, the interest on the "original loan of 50,000*l.* (now reduced to 46,015*l.*) has been also paid to 30th June "1894."

(*b*) Battersea Park Estate.

	£.	*s.*	*d.*
Principal outstanding on 31st March 1894 - -	100,000	–	–
Interest outstanding on 31st March 1894 - -	54,700	–	–

The interest due on 31st March 1893 was 70,700*l.*; the reduction of 16,000*l.* within the year is chiefly due to sales, sanctioned by the Treasury, of portions of the estate, which is under the management of the Commissioners of Public Works and Buildings.

I am informed that "the Board of Works consider that the security is adequate "for the ultimate redemption of the advance."

(*c*) Labourers' Dwellings.

Mr. *R. L. Cosh.*

The amount due on this loan on 31st March 1894 was as follows :—

	£.	*s.*	*d.*
Principal - - - - - - - - -	11,851	5	–
Interest - - - - - - - - - -	932	2	11

In my Report on the Account for 1891-92, I drew attention to the circumstances in connection with this loan, and stated that there was "little probability of there "being any funds available for the repayment of the principal for several years."

This forecast appears to be justified by the fact that the interest outstanding has risen from 829*l.* 2*s.* 7*d.* on 31st March 1892 to 884*l.* 1*s.* 7*d.* on 31st March 1893, and to 932*l.* 2*s.* 11*d.* on 31st March 1894.

In answer to a query which I have recently addressed to the Public Works Loan Board, I am informed that "they could not report to the Treasury that the "principal was irrecoverable."

Commissioners of Public Works, Ireland:

	£.	*s.*	*d.*
Principal outstanding on 31st March 1894 -	357,770	5	1
Interest outstanding on 31st March 1894 - -	192,282	19	6

The corresponding amounts on the 31st March 1893 were shown as—

Principal - - - - - - - - -	337,319	3	1
Interest - - - - - - - - -	198,842	8	3

(*a*) Railways.

A single service, namely, Loans for Railways, is responsible for a considerable portion of these arrears, the balance outstanding on 31st March 1894 being as follows, viz.:—

	£.	*s.*	*d.*
Principal - - - - - - - - -	274,797	12	1
Interest - - - - - - - - - -	154,797	4	9
TOTAL - - -	£. 429,594	16	10

against a total of 424,124*l.* 2*s.* 4*d.* on the 31st March 1893, an increase of 5,470*l.* 14*s.* 6*d.*

It is stated in the 61st Report of the Commissioners (1893) that the revenue returns do not show much sign of improvement, and whilst special expenditure in some cases is still necessary to put the lines into a satisfactory condition, the cost of working, owing to the requirements of the Board of Trade and the public demand for increased facilities and accommodation, has a constant tendency to rise, so that for some years the arrears cannot be expected to show any decrease.

The following Statement, which I have caused to be prepared, distributes, amongst the 17 undertakings concerned, the amount of principal and interest in arrear on the 31st March 1893, and 31st March 1894, and will be found to exhibit practically in every instance a growth of arrears; the apparent reduction in the case of the Waterford and Wexford Railway being due to the remission of debt, shown in paragraph 12 of this Report.

(*b*) Inland Navigations.

The increase in arrear from 6,000*l.* to 8,298*l.* 3*s.* 7*d.* within the year is mainly attributable to the continued postponement of the payment of interest upon the Newry Navigation, amounting to 2,000*l.* per annum. The arrangement under which the postponement was sanctioned was noticed in my Report for 1890–91.

The remaining arrear on the Lagan Navigation was discharged shortly after the close of the financial year.

The total arrears on this service amounted on —	£.	*s.*	*d.*

The following Statement, which I have caused to be prepared, distributes amongst the undertakings concerned the amount of principal and interest in arrear on the 31st March 1893 and 31st March 1894, respectively.

(*d*) Labourers' Dwellings in Towns, 29 & 30 Vict. c. 44.

Labourers Acts, 46 & 47 Vict. c. 60.

The arrears on these services show satisfactory reductions within the period of the account, from 2,192*l.* 6*s.* 2*d.* and 1,045*l.* 3*s.* 6*d.*, to 1,928*l.* 19*s.* 2*d.* and 825*l.* 15*s.* 10*d.*, respectively.

Arrears 31st March 1893	1,917	13	10
Arrears 31st March 1894	1,937	3	2

(*f*) River (Arterial) Drainage (26 & 27 Vict. c. 88).

The arrear on this service on 31st of March 1893 was 11,279*l.* 1*s.*, and on 31st March 1894 was 11,077*l.* 6*s.* 1*d.* The apparent reduction shown is, however, due to certain arrears being written off under 56 & 57 Vict. c. 40.

The following are the Drainage Districts which show the largest arrears, viz. :—

	£.	s.	d.
Six Mile Bridge	1,163	17	10
Doohyle	1,343	7	2
Upper Inny	1,192	17	7
Rathangan	1,375	—	3

(*g*) River (Arterial) Drainage Maintenance.

The arrear on this service, to which I drew attention in my last year's Report, has diminished from 2,031*l.* 15*s.* 11*d.* to 1,737*l.* 16*s.* 3*d.* within the period of the account. This arrear is, however, still in excess of the amount which was outstanding on 31st March 1892.

(*h*) Seed Supply Act, 1880.

The arrear on this service remains at 12,057*l.* 0*s.* 11*d.* The sanction of the Treasury has been granted for a temporary postponement of proceedings against the Unions in arrear, which are as follows, viz. :—

	£.	s.	d.
Oughterard	274	12	8
Westport	180	16	4
Glenties	747	19	8
Swinford	6,715	5	—
Newport	247	3	11
Dunfanaghy	556	15	5
Belmullet	1,337	9	5
Clifden	515	11	—
Cahirciveen	1,481	7	6

(*k*) Seed Supply Act, 1890.

The arrears on this service have increased from 4,128*l.* 18*s.* 9*d.* to 12,627*l.* 11*s.* 7*d.* within the period of the account, but they have since the 31st March 1894 been very largely reduced; the Unions which are in default are in most instances those which are in arrear in respect to the similar Act of 1880.

(*l*) Land Improvement Loans.

The total arrear on this service amounted to 28,856*l.* 7*s.* 8*d.* on 31st March 1894, as against 31,690*l.* 18*s.* 5*d.* arrear existing on 31st March 1893, showing an apparent decrease of 2,834*l.* 10*s.* 9*d.*

Part of this decrease is, however, due to the writing off of the sum of 1,430*l.* 3*s.* 7*d.* under the provisions of 56 & 57 Vict. c. 40.

(*m*) Land Act, 1870.

The increase in the arrears on this service amounts to 371*l.* 16*s* 1*d.* as against 230*l.* 12*s.* 11*d.* increase in the previous year. It is worthy of notice that this increase is almost entirely in respect of loans which have been in arrear for many years. The amount of arrear outstanding on 31st March 1894 was 7,812*l.* 0*s.* 1*d.*

(*n*) Land Law Act, 1881.

The total arrear on this service on the 31st March 1894 amounted to 10,026*l.* 11*s.* 9*d.* as against 10,052*l.* 17*s.* 3*d.* on the 31st March 1893, showing a slight apparent reduction. As, however, the sum of 1,366*l.* 19*s.* 9*d.* has been written off under the provisions of 56 & 57 Vict. c. 40, there has been a virtual increase of arrear.

This increase is co-existent with an increase of arrear shown under a service of a nearly similar character, the advances made by the Irish Land Commissioners, which are dealt with in a subsequent head of this paragraph.

From these remarks it will be seen that, with the single exception of the loans to railways, the arrears on the services administered by the Commissioners of Public Works in Ireland appear to be not altogether unsatisfactory. I have been informed by the Accounting Officer that all possible steps are taken, by pressure through the Accountant's Department in some instances, and by legal action in others, for their recovery, and that the arrears "are gone into in detail annually by an officer from the Treasury."

Irish Land Commissioners.

Of the total sum authorised to be advanced by the Irish Land Commissioners under the provisions of the Land Law (Ireland) Act, 1881; the Tramways (Ireland) Act, 1883; the Purchase of Land (Ireland) Act, 1885; and the Purchase of Land (Ireland) Amendment Act, 1888, there has been advanced, within the period of the Account, the net sum of 592,277*l.* 5*s.* 11*d.*, making, with previous advances, a net total of 8,249,342*l.* 15*s.* 8*d.*; of this total, the sum of 1,829*l.* 18*s.* 4*d.* has been written off the assets of the Local Loans Fund in the year 1893–94.

The arrears have increased within the period of the account from 10,552*l.* 10*s.* 6*d.* to 11,844*l.* 5*s.* 9*d.* Included in these arrears is a sum of 2,241*l.* 0*s.* 11*d.*, which is due upon a single loan of 42,300*l.* made in the year 1887–88 to the Irish Land Purchase and Settlement Company, now in liquidation.

This arrear, which has been alluded to in my Reports upon the Irish Land Commission, may fairly be excluded from any general consideration of arrears existing under the Land Law Acts.

Fishery Board, Scotland.

The Account of Loans to Fishermen, made under the provisions of the Crofters' Holdings, Scotland, Act, 1886, is a comparatively small, but at the same time, unsatisfactory service.

The

The total advanced under the Act was 30,111*l.* 16*s.* 7*d.*

Of this sum the amount of 3,965*l.* 16*s.* 3*d.* has been written off as irrecoverable, and the arrears of Principal and Interest on the 31st March 1894, amounted to 4,050*l.* 8*s.* 2*d.*

The Annual Report of the Fishery Board, presented to both Houses of Parliament, details and explains this service.

PREFATORY NOTES.

I.

PART I. of this Return is an account of the nominal capital liabilities of the State outstanding at the close of each financial year since 1835–36.

It shows not only the amount of Funded Debt, the estimated capital value in Stock of Terminable Annuities, and the amount of the Unfunded Debt; but likewise any other liabilities, which may be regarded as proper additions to be made in a statement of the total indebtedness of the nation.

The Account also gives the calculable Assets of the State. Hitherto, these Assets have been deducted from the gross liabilities, and the resulting net liabilities have been stated. But a change in the form of the Account has been rendered necessary this year in consequence of the materially altered character of the principal Asset. The Coupons of the Suez Canal Shares, which were purchased by Her Majesty's Government from the Khedive of Egypt in 1875–76, had been detached and sold by His Highness up to the 1st July 1894; and, consequently, until the time came when the shares would be earning the prescribed rate of interest and the current dividend, they could only be reckoned as an Asset of the State at their nominal value (3,532,040*l.*). That time having arrived in the course of last year, the shares became thenceforward a marketable security; and, as such, they were, according to the official quotations, estimated to be worth nearly 24 millions on the 31st March 1895. As, however, the value of so large an amount of shares must to some extent be hypothetical, and as such a security is liable to fluctuate in value, it has been considered undesirable to make an actual deduction from the liabilities on account of the shares. Consequently, the Assets of the State are only denoted, and the attempt to compute the net liabilities of the State has been abandoned.

In this Account there is likewise separately stated the amount of the Exchequer Balance at the end of each financial year.

II.

Part II. of this Return is an account of the total issues made in connection with capital liabilities in each year since 1835–36, which have been charged against the Revenue. The account, moreover, gives any receipts which are cognate to Debt services, and thus it also shows the true charge in each year on the taxpayer in respect of the interest of the Debt and of repayments of capital. The details of these issues and receipts in 1894–95 will be found in Appendix V.

The issues charged against the Revenue of the year do not, however, comprise all the Cash transactions affecting capital liabilities. Accordingly a further account is given in Appendix IV., which adds to those issues, (1) the amount of the Old Sinking Fund representing the surplus of the preceding year, (2) any sums taken out of the Exchequer balance which are applied to Debt purposes, and (3) any other sums which, though not forming part of the Revenue, go to the discharge of Debt (like composition in respect of Stamp Duty and Land Tax Redemption, and the Restitution Annuity charged on the Local Loans Fund). The same Appendix also shows the amount (if any) raised by creation of Debt, in order that the net result of the Debt transactions in Cash may be ascertained. In correspondence with the account of capital liabilities (Part I.), which states the amount of the Exchequer balance at the end of the year, supplementary columns are added to Appendix IV. to show by how much the balance has been increased or decreased in the year, and at the same time how far the receipts which have gone to increase the balance have been repayments involving a decrease of assets, and how far the payments which have gone to decrease the balance have been advances involving an increase of assets.

Notwithstanding that all such transactions are included in Appendix IV., it will be found that the amount by which the net liabilities are reduced does not correspond with the amount of money applied in redemption of Debt, less the amount (if any) raised by creation of Debt.

In

In the first place, a given amount of Cash will cancel either a larger or a smaller amount of Stock, according as the Stock stands below or above par. In the second place, the full amount issued to the National Debt Commissioners in one year for redemption of Debt may not be actually so applied until the next year, as they do not always effect their purchases of Stock immediately on the receipt of the money. In the third place, the full consideration money for the Debt created in one year may not be received till after the close of that year. Lastly, there may be no transaction in Cash corresponding to an increase or decrease of assets, which nevertheless constitutes one of the elements of an account of net liabilities, as, for example, when Loans are remitted, or when valuation of Stock, as in the case of the Savings Banks and Friendly Societies Deficiencies, has to be taken into account.

III.

The other Appendices to the Return are further complements to the principal accounts (Parts I. and II.).

1. Appendix I. shows in detail the gross capital liabilities and estimated assets of the State for the latest year.

2. Appendix II. shows in detail how the aggregate increases or decreases of the Funded Debt, the capital value of the Terminable Annuities, and the Unfunded Debt have been effected.

3. Appendix III. is a statement of contingent or indirect liabilities of the State, consisting of Loans which, though primarily charged on other securities, have, pursuant to Acts of Parliament, the guarantee of the Consolidated Fund behind them.

4. Appendix VI. contains brief notes on the principal operations of the Debt during the entire period to which the Return relates.

IV.

	£.
It will be seen from Part I. (p. 9) that the Gross Liabilities of the State, which amounted on the 31st March 1894 to	669,104,024
were reduced (on balance) in the succeeding twelve months by	8,943,417
and thus stood on the 31st March 1895 at	£.660,160,607

This abnormally large reduction of Liabilities in 1894-95 was due to arrangements connected with Section 41 of the Finance Act, 1894 (57 & 58 Vict. c. 30). That section made special provision for liquidating the Debt incurred under the Imperial and Naval Defence Acts; and for that purpose, under the authority of the Sinking Fund Act, 1875 (38 & 39 Vict. c. 4, s. 3), the National Debt Commissioners held over until August 1894 the greater part of the New Sinking Fund of 1893-94.

The following explanation is given of the manner by which the reductions in 1894–95 were effected:—

1. Funded Debt.

	£.	£.
The Funded Debt, which at the commencement of the year stood at		587,631,096
was reduced—		
(1) By Stock cancelled for the purchase of Annuities for Life and Terms of years	1,262,255	
(2) By Land Tax Redemption and Composition of Stamp Duty	133,951	
(3) By the Local Loans Restitution Annuity	126,400	
(4) By the application of the balances of the New Sinking Fund of—1893–94	24,962	
1894-95	148	
(5) By sundry means	67,461	
		1,615,177
to	£.	586,015,919

2. Terminable Annuities.

	£.
The estimated capital value of these Annuities stood on the 31st March 1894 at	57,076,898
and being reduced in the year by	3,494,176
amounted on the 31st March 1895 to	£. 53,582,722

3. The Unfunded Debt.	£.	£.
It was under this head of Debt that the abnormal reduction took place.		
At the commencement of the year it stood at - - - - - - -		21,446,300
(1) A sum borrowed in the last quarter of 1893–94 in aid of Ways and Means, whereby the Exchequer Balance was temporarily repleted, was paid off on the 5th April 1894 -	750,000	
(2) The sum of £1,575,565 6*s.* 4*d.* part of the New Sinking Fund of 1893–94 (£1,826,592 2*s.* 6*d.*), and the sum of £1,718,107 18*s.* 10*d.* part of the New Sinking Fund of 1894–95 (£1,718,263 3*s.* 7*d.*), were applied:—		
(a.) In discharge of the entire Debt created under the Naval Defence Act, 1889, viz.: £.		
Treasury Bills - - - 2,450,000		
Exchequer Bonds - - 696,000		
	3,146,000	
(b.) In repayment of part of the Debt (£2,600,000) created under the Imperial Defence Act, 1888, viz.:		
Treasury Bills - - - - - -	150,000	
		4,046,000
Accordingly, the Unfunded Debt stood on the 31st March 1895 at - - - - - - - - - - - - - -	£.	17,400,300
4. Other Capital Liabilities.		
On the one hand—		
(1) The liability under the Russian-Dutch Loan Act, 1891, was reduced, by the operation of the terminable annuity		
from - - - - - - - - - - - - -	473,353	
to - - - - - - - - - - - - - -	443,045	
or by - - - - - - - - - -		30,308
(2) The liability under the Imperial Defence Act (Part I.), 1888, was reduced, by the operation of the terminable annuity from - - - - - - - - - -	611,783	
to - - - - - - - - - - - - - -	531,941	
or by - - - - - - - - - -		79,842
(3) The Trustee Savings Banks Deficiency, estimated on the 20th November 1893 at - - - - - - - - - -		*398,953
disappeared owing to the increased valuation of the assets on the 20th November 1894.		
Total Reduction - - - - - - -		509,103
On the other hand, owing to the necessity for additional borrowing,		
(1) The liability under the Barracks Act, 1890, £.		
was increased (on balance) from - - - 1,215,754		
to - - - - - - - - - - 1,856,210		
or by - - - - - - - - - -	†640,456	
(2) The liability under the Telegraph Act, 1892, £.		
was increased (on balance) from - - 249,887		
to - - - - - - - - - - 330,470		
or by - - - - - - - - - -	‡80,583	
Total Net Increase - - - - - -		721,039
Accordingly, there was a Net Increase of - - - - - - under the head of these liabilities.	£.	211,936

* Instead of this deficiency of £398,953 on the 20th November 1893, there was on the 20th November 1894 a surplus of assets over liabilities amounting to £1,168,643 10*s.* 2*d.*

† The amount actually borrowed in the year was £670,000; but the debt previously created was, by the operation of the terminable annuity, reduced by £29,544.

‡ The amount actually borrowed in the year was £90,000; but the debt previously created was, by the operation of the terminable annuity, reduced by £9,417.

(*a*) The Capital Value of all the Annuities in this column is computed in 3 per Cent. Stock, at Par, down to the 31st March 1888, inclusive.

* Exclusive of 368,000*l.* Exchequer Bills purchased for cancellation, but not formally cancelled.

† The Statement of Unfunded Debt at the close of these years is exclusive of certain Bills which, although not cancelled until the following years, were covered by Stock created for their conversion, and included in the Funded Debt.

§ The Assets in the years ended 5th January 1848 and 1854 were reduced by the partial remission of several large loans, but in the former year the reduction fell far short of the increase caused by additional loans.

‖ Including 790,000*l.* Ways and Means Advances outstanding.

¶ Including 1,000,000*l.* Ways and Means Advances outstanding.

‡ For the purpose of comparison, the following additions should be made to the Exchequer Balances (Col 11), owing to there not being received within the year the full consideration money for Debt created, viz.:

(‡) The Capital Value of all the Annuities in this column is computed in 3 per Cent. Stock, at Par, down to the 31st March 1888, inclusive. Subsequently, in consequence of the passing of the National Debt (Conversion) Act, 1888 (51 Vict. c. 2), the valuation of the Annuities is based with reference to 2¾ per Cent. Consols.

* Including 1,000,000*l.* Ways and Means Advances outstanding in the years ended 31st March 1869 and 1880.

† Had the full consideration money for the Exchequer Bonds created in 1875–76 for the purchase of the Suez Canal Shares been received before the 1st April 1876, the balance in the Exchequer on the 31st March 1876 would have been larger by 700,000*l.* (*See* Appendix IV., page 25, col. 9.)

§ The Assets in 1877–78, 1879–80, and 1881–82, were reduced by the deduction of a large accumulation of "Irrecoverable Loans," of which the abandonment was authorised in those years.

‖ *See* Appendix I. for details.

** Including 750,000*l.*, borrowed in aid of Ways and Means, outstanding on the 31st March 1894, but repaid on the 5th April 1894.

§§ *See* Appendix VI., page 34.

¶ On the 20th November 1894, the value of the assets, held by the National Debt Commissioners, on account of Trustee Savings Banks, exceeded the liabilities by 1,168,644*l.*, and those held on account of Friendly Societies by 80,854*l.*

‡‡ The Indian Government was released of its obligation to repay the loan of 2,000,000*l.* made in 1879.

* In Column 4, interest on Local Loans is included from 1874–75 to 1886–87, both inclusive, and interest on the purchase-money of the Suez Canal Shares is included from 1876–77 to 1893–94, both inclusive. The redemption of the Debt created in connection with the purchase of the Suez Canal Shares having been completed in 1893–94, the receipts on account of the Interest and Dividend on the Shares are, consequently, not set off against the Debt charges from that date.

† For details *see* Appendix V., pages 26 and 27, and also Appendix A. to the Return relating to the charge on taxes moved for annually by Sir Henry H. Fowler.

Note.—The issues charged against the Revenue of the year do not comprise all the cash transactions affecting Capital liabilities. Accordingly, Appendix IV. is added, which brings together all sums applied in redemption of Debt, and also gives the amount (if any) raised by creation of Debt.

†† The net liability to the Unclaimed Dividend Account is in course of reduction through the application of the dividends on stock held by the National Debt Commissioners as an asset of the account. The abnormal reduction in the year ended 31st March 1885 was mainly due to the increase in the amount of such asset by the conversion of 3 per cent. stock into 2½ per cent. stock under the National Debt (Conversion of Stock) Act, 1884, 47 & 48 Vict. c. 23.

† When the Local Loans Fund was established in 1887, by the National Debt and Local Loans Act, 1887 (50 & 51 Vict. c. 16), the bonds or certificates of indebtedness of the Public Works Loan Commissioners, held by the National Debt Commissioners on the 31st March 1887, amounted to 9,516,257*l.* 6*s.*, but as out of this amount advanced by the National Debt Commissioners the sum of 47,544*l.* 4*s.* 8*d.* had been received back by the Public Works Loans Commissioners from Local Authorities before the 31st March 1887, and was consequently repayable to the National Debt Commissioners, the amount of bonds actually cancelled and exchanged for Local Loans Stock was 9,468,713*l.* 1*s.* 4*d.* *See* Note in Appendix VI., p. 32.

‡ For explanation of the creation of this Stock, *see* Notes in Appendix VI., p. 32.

§ In 1888–89 special expenditure amounting to 3,009,958 *l.* was incurred in connection with the operations under the National Debt Conversion Act, 1888; and of this amount 2,009,958 *l.* was charged against the revenue of the year, the remaining million being borrowed, as shown in Column 8. Accordingly, had there been no such expenditure, the surplus revenue of the year, constituting the Old Sinking Fund, and thus applicable to reduce debt in 1889–90, would have been 2,798,940 *l.* instead of 788,982 *l.*

‖ In 1889–90 special expenditure amounting to 42,550 *l.* was incurred in connection with the operations under the National Debt Redemption Act, 1889 and charged against the revenue of the year. Accordingly, had there been no such expenditure, the surplus revenue of the year, constituting the Old Sinking Fund, and thus applicable to redeem Debt in 1890–91, would have been 3,263,552 *l.* instead of 3,221,002 *l.*

‡ For the complete transactions up to the 31st March 1891 under the National Debt (Conversion and Redemption) Acts, *see* House of Commons Paper, No 163, of 1890. For an explanation of the amount subsequently borrowed, *see* Appendix VI., pages 33 and 34.

* £. 750,000 borrowed in aid of Ways and Means, and outstanding on the 31st March 1894, was repaid on 5th April 1894.

Financial Year ending		
31 March 1892 (*Continued.*)	In pursuance of the Act 54 & 55 Vict. c. 26, so much of the portion of the Russian-Dutch Loan, guaranteed by Great Britain, as was outstanding on the 30th June 1891 was paid off. The sum required to discharge the debt, viz., 519,939 *l.* 7 *s.* 11 *d.*, was borrowed from the National Debt Commissioners, on a terminable annuity of 43,553 *l.* 11 *s.* 3 *d.* calculated to repay the advance with 3 per cent. interest by the 6th July 1906. The capital value of the annuity of 43,553 *l.* 11 *s.* 3 *d.* on the 31st March 1892, was 531,359 *l.*, and it was thus larger than the amount of the Russian-Dutch Loan discharged, viz., 519,939 *l.*; the reason being that, as the first instalment of the annuity was not paid within the financial year, there was interest accruing for about nine months.	54 & 55 Vict. c. 26.
	Part of the annuities which were set up in 1883–84 (46 & 47 Vict. c. 54) in place of cancelled 3 per cent. Stock, and were re-adjusted in 1887–88 (50 & 51 Vict. c. 16), is held on account of Trustee Savings Banks. These annuities are valued among the assets of the Trustee Savings Banks at the value of the amount of Stock not yet replaced. On the 20th November 1890 that Stock was assumed to be 3 per cent. Stock, and valued accordingly. On 20th November 1891 the Stock was assumed to be $2\frac{3}{4}$ per cent. Stock (pursuant to Act 54 & 55 Vict. c. 24) and valued as such. This change in the principle of valuation reduced the value of the assets of the Trustee Savings Banks by 1,242,000 *l.*, and correspondingly increased the liability of the Consolidated Fund.	
31 March 1893	Under the National Debt (Conversion of Exchequer Bonds) Act, 1892, Unfunded Debt to the amount of 13,000,000*l.* was cancelled, and the Funded Debt was increased by a similar amount by the creation in the Books of the Treasury and Exchequer of a Book Debt consisting of a charge upon the Consolidated Fund (Book Debt).	55 & 56 Vict. c. 26.
	The Unfunded Debt was reduced by the application of 1,064,497*l.* 1 *s.* 4 *d.* Old Sinking Fund, and 1,743,000 *l.* New Sinking Fund, in payment off of Treasury Bills.	
	The sum of 535,000 *l.* was raised under the Barracks Act, 1890, by the creation of Terminable Annuities, the charge in respect of which is borne on the Votes for Army Services.	53 & 54 Vict. c. 25.
	The sum of 86,000 *l.* was raised under the Telegraph Act, 1892, by the creation of Terminable Annuities, the charge in respect of which is borne on the Vote for Post Office Telegraph Services.	55 & 56 Vict. c. 59.
31 March 1894	The new 3 *l.* 10 *s.* per Cent. Annuities created under Act 16 Vict. c. 23, amounting to 225,746 *l.* 6 *s.* 4 *d.*, and redeemable at any time after 5th January 1894, were paid off with New Sinking Fund.	
	The balance of the New Sinking Fund, amounting to 1,600,845 *l.* 16 *s.* 2*d.*, remained uninvested at 31st March 1894, in order to give effect to the proposals which were subsequently embodied in the Finance Act (57 & 58 Vict. c. 30).	
	The sum of 680,000*l.* was raised under Barracks Act, 1890, by the creation of Terminable Annuities, the charge in respect of which is borne on the Votes for Army Services.	53 & 54 Vict. c. 25.
	The sum of 160,000 *l.* was raised under the Telegraph Act, 1892, by the creation of Terminable Annuities, the charge in respect of which is borne on the Vote for Post Office Telegraph Services.	55 & 56 Vict. c. 59.
	The repayment in respect of the 4,000,000 *l.* Exchequer (Suez) Bonds created in 1876 was completed on 20th March 1894.	39 & 40 Vict. c. 1.
31 March 1895	The Unfunded Debt, created under Naval Defence Act, 1889, amounting to 3,146,000 *l.*, and 150,000 *l.* of the Unfunded Debt, created under Imperial Defence Act, 1888, were paid off by the New Sinking Funds for 1893–94 and 1894–95.	57 & 58 Vict. c.
	The sum of 670,000 *l.* was raised under Barracks Act, 1890, by the creation of Terminable Annuities, the charge in respect of which is borne on the Votes for Army Services.	53 & 54 Vict. c. 25.
	The sum of 90,000 *l.* was raised under the Telegraph Act, 1892, by the creation of Terminable Annuities, the charge in respect of which is borne on the Vote for Post Office Telegraph Services.	55 & 56 Vict. c. 59.
	The Sinking Fund Annuity of 6,906 *l.* 14 *s.* 7 *d.*, which was created in 1853 by the Act 16 Vict. c. 23, Section 32, and which ran for 40 years, in order to extinguish the amount by which the nominal capital of the Debt was increased by the Conversion Scheme of that year, expired in the course of 1894-95. The amount which the Annuity was intended to cancel was 276,268 *l.* 15 *s.* 7 *d.*; the amount actually cancelled was 330,212 *l.* 17 *s.*

TREASURY MINUTE, dated 1st July 1895.

My Lords have before them the new Contract with the City of Dublin Steam Packet Company, for the conveyance of Her Majesty's Mails between Holyhead and Kingstown, from the 1st of April 1897.

The present Contract was made in 1883, for a fixed period of 12 years, terminable on the 30th of September next, or on any subsequent date by 12 months' notice on either side.

My Lords record the fact that very strong representations have been made to them by the Irish Government and by the Postmaster-General, in favour of an acceleration in the present Mail Service between London and Dublin.

The new Contract will provide for the acceleration of the Sea Service between Holyhead and Kingstown, to the extent of half an hour on each voyage. An arrangement has already been made with the London and North-Western Railway Company, providing, in return for a further subsidy of 6,000*l.* a year, first for an acceleration of half an hour in the Night Mail Service between Euston and Holyhead, and Holyhead and Euston, which are the principal Mail Services to and from Ireland, and secondly, for an acceleration of the Saturday American Mail viâ Queenstown.

In regard to the Sea Service, the negotiations have been of a somewhat protracted character, in consequence of the high terms, in the first instance, asked by the City of Dublin Steam Packet Company, which was the only eligible tenderer for the service. The existing subsidy paid to the Company is 84,000*l.* a year, subject to a rebate in favour of the Post Office of one half of the traffic receipts in excess of 35,000*l.* a year. This rebate has lately amounted to about 1,700*l.* a year.

My Lords were assured by the professional advisers whom they consulted that the requirements of the Service would be adequately met by the provision of four new steamers, in return for a subsidy of 100,000*l.* a year, subject to the rebate above mentioned, and they accordingly authorised the Postmaster-General to negotiate with the Company on this basis. As a result of those negotiations, the Company have agreed to perform the accelerated Sea Service for a yearly subsidy of 100,000*l.*, from which, however, a fixed sum of 2,000*l.* a year will be deducted in lieu of the rebate of fluctuating amount hitherto obtained.

The accommodation for Mails and passengers provided under the new Contract is to be in no way inferior to that provided in the "Ireland," which is the largest and latest of the existing vessels, and the new vessels will be rather larger than that boat.

Certain works will be necessary at both Holyhead and Kingstown, to enable the Company to perform their obligations under the new Contract, and my Lords have undertaken that these works shall be executed prior to the date fixed for the commencement of the contract.

The Contract is for a period of 20 years, as from the 1st April 1897, and it provides, in the event of its continuance beyond the 31st of March 1917, for a reduction, until the termination of the Contract, of the subsidy to 80,000*l.* per annum.

My Lords approve.

Treasury Minute dated the 29th June 1895.

My Lords have before them the contract dated the 24th May 1895, with the Royal Mail Steam Packet Company for the conveyance of the West India Mails for the period from the 1st July 1895 to the 30th June 1900.

Notice having been given to terminate the existing contract with the Company on the 30th June 1895, tenders were invited for the service. The only tenders received in reply to the advertisements were from the Royal Mail Company, and were to the following effect:—

1. A service practically identical with the present (13 knots on the main line), for 80,000*l.* a year instead of the actual subsidy of 85,000*l.*
2. A similar service with a rearrangement of some of the branch lines in the Colonies (including a call at Tortola) and a certain improvement in speed on those lines, for 85,000*l.*
3. The same, without the call at Tortola, for 82,000*l.*
4. A similar service to the present, but with an extra speed of $1\frac{1}{4}$ knots on the main line, for 110,000*l.*
5. The same, with the above-named rearrangement of the branch lines in the Colonies, for 115,000*l.*
6. The same, without the call at Tortola, 112,000*l.*
7. A similar service to the present, with an extra knot in speed, but leaving and returning to Plymouth, 100,000*l.*
8. The same, with the rearrangement of branch lines in the Colonies, 105,000*l.*
9. The same, without the call at Tortola, 102,000*l.*
10. A service like the present, but with a speed of $13\frac{3}{4}$ knots on the main line as far as Barbados, leaving and returning to Plymouth, 85,000*l.*
11. The same, with the rearrangement of the branch services, 90,000*l.*
12. The same, without the call at Tortola, 87,000*l.*

My Lords, after learning the views of the Postmaster General upon the various tenders and having received the concurrence of the Secretary of State for the Colonies, came to the conclusion that the interests of this country, as well as of the Colonies as a whole, would be best served by the acceptance of tender No. 1 in the foregoing list, providing, as it does, for the continuance of the present service at a saving of 5,000*l.* a year, and they accordingly authorised the Postmaster General to accept the tender in question.

Among various suggestions affecting the new contract brought to the notice of this Board was one from the Leeward Islands Government, expressive of a desire for the extension of the period of the existing contract of the Company with that Government for a local steam service so as to make it terminate with the new Imperial Contract. Endeavours were made to achieve this object, but the Company, in view of the very serious annual loss entailed by the local service, felt itself precluded from accepting the proposal.

Although no positive guarantee has yet been given that all the West Indian Colonies will continue to contribute to the cost of the mail service, there is good reason to expect that, subject to a readjustment of the present apportionment, they will do so.

My Lords approve.

EXPLANATORY REMARKS.

THE Account of Exchequer transactions, which appears on the first pages of the Finance Accounts of the United Kingdom, constitutes what is considered to be the National Balance Sheet of each financial year. It gives, on the one side, the total receipts paid into the Exchequer as Revenue; and, on the other side, the total issues made out of the Exchequer to meet payments charged against Revenue.

The figures, however, include many items on both sides of the Account which are so closely connected with one another as to justify the set-off of the particular receipts against the corresponding payments, or *vice versâ*; and in this Return, for which Sir Henry H. Fowler has moved for some years, the set-off is (so far as is possible) made, the object being that the true cost of the Imperial Government, so far as it falls on the general taxpayer or the community at large, may be shown in broad detail over a series of years. The Return, in short, is an extension of the system now adopted for many years of appropriating extra receipts in aid of Expenditure; the result of which is to bring out smaller totals on both sides of the Account.

Thus:—According to the Finance Accounts for 1894–95 the total	£.
Revenue (page 8) amounted to - - - - - - - - -	94,683,762
and the total Expenditure chargeable against Revenue (page 9) to - -	93,918,421
The Revenue, therefore, exceeded the Expenditure by - - - -	765,341
In Sir H. Fowler's Return the Revenue (page 17) is set down at - -	82,551,191
and the Expenditure (page 29) at - - - - - - - - -	81,785,850
There is, therefore, brought out the same result, viz., a surplus of - -	765,341
It will be seen that the difference in the amount both of the Revenue and Expenditure as given in the two Accounts is - - - - -	12,132,571

Before this difference is accounted for, it is necessary to explain the basis of the Return, and to reconcile the figures which it contains with those in the Finance Accounts.

Part I. gives as Public Income:

1. The amounts received into the Exchequer in respect of Revenue derived from taxes.
2. The amounts received into the Exchequer in respect of Revenue derived from other sources, viz.:—
   - (1.) Postal and Telegraph Revenue, together with such extra receipts as are cognate to Postal Services, *less* the Expenditure incurred on those services, as represented by Exchequer issues on account of Post Office, Telegraph, and Packet Services.
   - (2.) Revenues of the Crown (though according to some authorities these receipts might be set off against the Civil List Expenditure).
   - (3.) Interest and dividends on the Suez Canal Shares belonging to Her Majesty's Government, who, in pursuance of the terms of purchase, now enjoy the full rights and privileges of shareholders in the Company.*

The

* The sum received in former years (200,000*l.*) from the Khedive of Egypt, as interest for the money with which the shares were purchased, was set off against the Debt charges; inasmuch as the purchase money was borrowed. The repayment, however, of the loan was completed by the 1st April 1894.

The amounts received into the Exchequer under the remaining head of Revenue, viz., Miscellaneous Revenue (less the receipts cognate to the Postal Services), are set off against the heads of Expenditure to which they most appropriately belong.

Part II. classifies Public Expenditure under certain specified heads, viz. :—

1. National Debt Services.
2. Naval and Military Expenditure.
3. Civil Services, grouped under three main sub-heads, viz. :
   (1.) Civil List and Civil Administration.
   (2.) Public Education.
   (3.) Charges transferred from Local to Imperial Funds, and other Expenditure of a local character.
4. Customs and Inland Revenue (Collection of Taxes).
5. Special Services (if any), which do not fall under the other heads, such as Expenditure incurred under the National Debt (Conversion) Act, 1888.

Under this classification all charges belonging to each head or sub-head are brought together; that is, those which are included among *Consolidated Fund* Services and as such are permanent charges, as well as those which are included among *Supply* Services and as such are annual charges. From the gross totals so arrived at under the prescribed heads there are deducted the items of receipt which can properly be set off against those totals; such items being extracted from the Exchequer receipts classified in the Finance Accounts as "Miscellaneous Revenue."

It should, however, be stated that the classification of Expenditure proceeds on broad lines only. It does not attempt to be exhaustive. For instance, the charges borne on Civil Votes in respect of buildings, stationery, &c., for the Revenue Departments are not eliminated from expenditure on civil administration, and transferred to the services to which they more properly belong. Indeed, a detailed classification would in many instances be impossible; for it could only be done with precision when the final accounts of the various Votes are rendered, and they are not yet rendered for the past year when this Return is issued. Moreover, numerous transfers of charges from one service to another would greatly enhance the complication of the Return.

The figures in this Return and the Finance Accounts have next to be reconciled.

Part I.—INCOME.

The figures relating to Revenue derived from Taxes are identical in both Returns; so also are those relating to Crown Lands and the receipts from the Suez Canal Shares.

It is only with respect to Postal Services that explanation on the Income side is needed.

The smaller totals in both sides of the Account of Sir H. Fowler's Return, as compared with the National Balance Sheet in the Finance Accounts, can now be accounted for. It is due to two main causes:—

	£.	£.
1. The setting off the postal expenditure against the postal receipts, viz. (as above at p. 4)		10,248,804
2. The setting off of miscellaneous receipts against corresponding payments, viz.:—	£.	
(a) National Debt Services	240,652	
(b) Naval and Military Expenditure	305,535	
(c) Civil Services	1,337,495	
(d) Customs and Inland Revenue	85	
		*1,883,767
		12,132,571

	£.	£.
* These receipts set off against payments, viz.		1,883,767
correspond with the head of Revenue classified in the Finance Accounts as "Miscellaneous," viz.	1,865,786	
with the addition of a receipt of	17,981	
representing interest on the Sardinian Loan, which has hitherto been brought to account under the head of "Interest on Suez Canal Shares, &c.," but which, in consequence of the changed character of the Suez Canal receipts, and their being no longer suited to be set off against any expenditure, will, in future, be included under the head of Miscellaneous Revenue.		1,883,767

This

This Return, as the heading of it shows, is a Return relating to payments into the Exchequer on account of Revenue, and to issues out of the Exchequer on account of Expenditure charged against Revenue. But as the main object of the Return is to show the true burden on the taxpayer, and as the Revenue now transferred to the Local Taxation Accounts is, like the bulk of the Exchequer Revenue, paid by the taxpayer, the Return might be considered incomplete if no reference were made to the changes which in 1889–90, 1890–91, and 1891–92 were effected in the arrangements whereby relief is afforded in aid of local taxation.

Such relief previously consisted of sums which were voted annually by Parliament, and were handed over as "grants in aid" to local authorities, to meet expenditure of a local character, such as that on roads, the administration of the Poor Law, criminal prosecutions, police, pauper lunatics, &c. Pursuant to the Acts 51 & 52 Vict. c. 41, and 52 & 53 Vict. c. 50, these grants in England and Scotland, which amounted respectively to (about) 2,600,000*l.*, and in Scotland to (about) 300,000*l.*, were discontinued ; and in lieu thereof the receipts from the excise licenses collected in England and Scotland, amounting respectively to (about) 3,000,000*l.* and 320,000*l.*, were handed over to the local authorities. From this substitution of licenses for grants the local authorities in Great Britain derived some advantage ; and in order that Ireland, to whom local government was not extended, might secure an equivalent advantage, she received a grant of 40,000*l.* out of the Consolidated Fund, pursuant to the Act 54 & 55 Vict. c. 48, s. 5.

Further than this ; the relief in aid of local taxation was extended, and the extension took the form of the assignment of portions of other taxes to local purposes.

1. In the first instance, half the Probate Duty, and, subsequently to 1893-94, an equivalent share of the "Estate Duty," imposed by the Act 57 & 58 Vict. c. 30, was assigned in the fixed proportions of 80 per cent. to England, 11 per cent. to Scotland, and 9 per cent. to Ireland, pursuant to the Acts 51 & 52 Vict. cs. 41 and 60 ; and

2. In the second instance, a surtax on beer (3*d.* per barrel) and on spirits (6*d.* per gallon) was imposed and distributed between the three kingdoms in the same proportions, pursuant to the Acts 53 Vict. c. 8, and 53 & 54 Vict. c. 60.

In order to show these arrangements, there are added :

(1.) at the foot of pp. 15 to 17, Part I. (Exchequer Receipts), the amounts of Local Taxation Revenue which are handed over to Local Authorities ; and

(2.) at the foot of pp. 26 to 28, Part II. (Exchequer Issues), the expenditure which is met out of such Revenue by Local Authorities in England, Scotland, and Ireland, and which may be measured by the amounts thus placed at their disposal.

5 July 1895.

* Certain receipts applicable to Debt have in this Return been taken in diminution of the Charges in Column 6.

† The Packet Service, although under the Admiralty for these years, is included in the Second Column, to correspond with subsequent years.

‡ From the year 1862–63 inclusive, the Effective Charges in connection with British Troops serving in India, are included under Army Expenditure in Column 1. The Indian charges were limited previously to Non-Effective Expenditure (Retired Pay and Pensions, &c.). On the other hand, the receipts from Indian Revenues in repayment are included in Column 4, to 1883–84 inclusive (*see* note § below), neither transaction affecting the net Charge on Taxes, Column 5. These Effective Charges may be averaged at 650,000*l.* per annum, which sum should therefore, for sake of comparison, be added to the Amounts of Columns 1 and 4 for each year prior to 1862–63.

§ Prior to 1882–83 the Army and Navy Grants represented to a great extent the gross cost of the services. In 1882–83 and 1883–84, receipts not in the nature of taxation realised by the War Office and Admiralty, with the exception of contributions from the Indian Revenues for the forces serving or having served in India, were taken in aid of Exchequer Grants and deducted from Gross Estimates. From 1884–85 inclusive, such contributions have also been taken in aid of Exchequer Grants, and, like the other receipts not in the nature of taxation, have been deducted from the Gross Estimates.

¶ The Army and Navy Expenditure, though it is exclusive of Votes of Credit, &c., contained in Column 8, and given in detail on pages 6–8, includes the cost of the Abolition of Purchase from 1871–72, and the Charge on the Consolidated Fund imposed by the Naval Defence Act (52 Vict. c. 8) from 1889–90.

** This Column represents Civil Expenditure of all kinds, with the exception of such expenses as those connected with the redemption of Sound Dues and Scheldt and Stade Tolls, &c., contained in Column 8, and given in detail on pages 6–8.

†† *See* note * on page 4.

MEMORANDUM.

THE following Returns are in continuation of Parliamentary Paper No. 69 of Session 1894.

The Returns of the Savings Banks at Exeter and Liverpool are of a different character from the rest, as these Banks only purchase and sell stock for their depositors, a specific amount being assigned to each depositor in the same manner as the Government Stock held for depositors is dealt with under the Savings Banks Acts, 1880.

Appended are summaries showing:—

I.—Summary of the Revenue Accounts,

II.—Summary of the Balance Sheets,

III.—Summary of Securities held by the Banks,

which have been prepared from the information supplied in the Returns.

And whereas the terminal stations in South Africa of the Telegraph Company's submarine cables to which the reduced rates for South African traffic specified in the Second Schedule hereto apply are situated at Capetown in the Cape Colony at Durban in Natal and at Lourenço Marques in Portuguese territory.

Now these presents witness and it is hereby agreed and declared as follows:—

1. The Telegraph Company will from the first day of April One thousand eight hundred and ninety-five until the determination of this Agreement transmit or procure the transmission of the South African traffic at rates to and from the said terminal stations and Europe not exceeding the total rates specified in the Second and Third Schedules hereto.

2. The contracting Colonies will from the said first day of April One thousand eight hundred and ninety-five until the determination of this Agreement transmit or procure the transmission of the South African traffic exchanged between the said terminal stations and other places in the territories of the Colonies and States mentioned in the Third Schedule hereto at the rates specified in such Schedule so far as their own Administrations are concerned.

3. Her Majesty's Government and the contracting Colonies will on and after the expiration of the period of twenty years fixed in the Principal Agreement for the payment of the subsidies therein mentioned cause to be paid to the Telegraph Company

in London for a period of ten years to commence from such expiration the subsidy or sum of 17,000*l.* per annum in the following proportions respectively namely :—

By Her Majesty's Treasury - - -	8,750*l.*	per annum.
By the Government of the Cape Colony (or in the event of the Orange Free State paying to the Telegraph Company the sum of 200*l.* per annum then the payment by the Cape Colony shall be reduced to 5,800*l.*) - -	6,000*l.*	,,
By the Government of Natal - - -	1,650*l.*	,,

4. The said annual subsidy or yearly sum shall be paid by Her Majesty's Treasury out of moneys to be provided by Parliament and by the contracting Colonies by quarterly payments at the offices of the Telegraph Company in London the first payment thereof to be made at the termination of three calendar months from the expiration of the said period of twenty years and such annual subsidy or yearly sum shall be independent of any other subsidy or subsidies which may be granted to the Telegraph Company in respect of the East Coast route and the West Coast route or either of them.

5. The payment of such annual subsidy or yearly sum shall be conditional on telegraphic communication with the said terminal stations being in good working order and condition so that messages may be transmitted in the ordinary course of business by either route. Provided nevertheless that in the event of simultaneous interruption to the two routes viâ Aden—Suez and viâ St. Paul do Loanda a period of three months shall be allowed if the interruptions are between Zanzibar and Durban and between Bathurst in the Colony of Gambia and Capetown and a period of six months if the interruptions are between Zanzibar and Porthcurnow in the County of Cornwall and between Bathurst and Porthcurnow for repairs before the annual subsidy or yearly sum shall cease to be paid. At the expiration of the periods aforesaid respectively the annual subsidy or yearly sum shall cease to be payable and shall recommence when such lines shall again be in good working order as aforesaid Provided always that if the aforesaid periods respectively shall be extended by Her Majesty's Government with the concurrence of the contracting Colonies the annual subsidy or yearly sum shall not cease to be payable until after the expiration of the extended period.

6. By Government messages are meant—political or administrative messages sent from or to Her Majesty and by Her Majesty's Principal Secretary of State for the Colonies by any Government Department in the United Kingdom by the respective Agents General for the Colonies of the Cape Colony Natal (or any other South African Colony or Colonies to which the reduced rates in the Second Schedule are agreed to be applied) by the Head Office of the British South Africa Company on the one hand and by the High Commissioner Governors Ministers or any officer in charge of any Government Department of the various Colonial Governments (including the British South Africa Company) on the other hand or any of them on matters relating to the public business of the contracting Colonies. Provided always that full rates may be charged for all messages sent by or to the British South Africa Company which in the opinion of the Chairman for the time being of the Telegraph Company are neither

political nor administrative and the decision of such Chairman thereon shall be final.

7. By Press messages are meant messages addressed to newspapers duly published in accordance with the respective laws relating to the publication of newspapers in force in the United Kingdom or the Colonies or countries in which they are respectively published and intended in good faith for publication in full in such newspapers and shall include only such as are intelligible and written in English French or Dutch in plain language and without the use of cypher code groups of figures or letters or words of concealed meaning.

8. Nothing in this Agreement contained shall prejudice the right of the Telegraph Company to at any time reduce the charge for messages between Europe and the said terminal stations for South African traffic and at pleasure to raise them subject to the maximum limits fixed by this Agreement. Provided always that the Telegraph Company shall not during the continuance of this Agreement charge a higher rate for messages between the United Kingdom and the said terminal stations for South African traffic than that charged by them between any other place in Europe and such terminal stations.

9. In the event of the full rates for South African traffic being at any time reduced by the Telegraph Company the charges per word for Government messages shall not exceed the full outpayments for the time being charged by Governments and administrations and one-half of the rate retained by the Telegraph Company and its Associated Companies for their own use and benefit. Provided always that the rate so charged per word for Government messages shall in no case exceed the amount set out in the Second Schedule hereto as rates for such messages.

10. It is hereby agreed that if during the last five years of the said period of ten years mentioned in Article Three the net receipts (as defined in Clause Eleven) of the Telegraph Company and its Associated Companies from the South African traffic retained by them for their own use and benefit shall exceed the sum of 180,000*l.* in any one year Her Majesty's Government and the contracting Colonies shall for such year be entitled to receive from the Telegraph Company in the aggregate seventeen twenty-sevenths of one moiety of the amount of the excess over the said 180,000*l.* in the proportion in which they contribute to the said annual subsidy or yearly sum of 17,000*l.* but so that the total sum so payable to Her Majesty's Government and the contracting Colonies shall not exceed the amount of 17,000*l.* in any one year.

11. The said net receipts of the Telegraph Company and its Associated Companies from South African traffic shall be ascertained by reference to the rates shown in the second and fifth columns of the said Second Schedule or such other rates as may be retained by them for their own use and benefit (being the difference between the total rate collected and the out-payments) out of the full rate for the time being charged. The out-payments shown in the third and sixth columns of the said Second Schedule shall be subject to any alteration which may be agreed to at any conference of the Telegraph Union but such alteration shall not affect the full rate charged without the consent of all the parties hereto.

12. The Telegraph Company shall within three months of the expiration of each of its financial years send to Her Majesty's Government an account showing

the net receipts of the Telegraph Company and its Associated Companies retained by them for their own use and benefit out of the South African traffic and such account shall when required by Her Majesty's Government or the contracting Colonies be verified by the production of the traffic accounts of the Telegraph Company kept in respect of the said terminal stations and where so required by a statutory declaration made by the Secretary, Traffic Accountant, or other duly authorised officer of the correctness of such accounts. Nothing herein contained shall give Her Majesty's Government or the contracting Colonies any further or other rights to inspect any other accounts of the Telegraph Company or their Associated Companies nor take away any existing rights of Her Majesty's Government.

13. Except as by this Agreement expressly provided nothing in this Agreement shall alter prejudice or affect the provisions contained in the Principal Agreement the Second Principal Agreement and the Third Principal Agreement or any of them but the provisions of the Principal Agreements so far as applicable to this Agreement shall continue in force for the said period of ten years.

14. In the event of the non-payment to the Telegraph Company of the said sum of 17,000*l.* per annum or any part thereof whether by reason of the provisions of Article Fifteen hereof or otherwise or of the sum of 10,000*l.* per annum or any part thereof payable by the South African Republic in accordance with the terms of a certain Agreement dated nineteenth February One thousand eight hundred and ninety-five made between the said Republic of the one part and the Telegraph Company of the other part the Telegraph Company shall be at liberty by two calendar months' notice either in writing or by telegraph to determine this Agreement without prejudice to any rights that the Telegraph Company may be entitled to.

15. Her Majesty's Government or the contracting Colonies or any of them shall be at liberty to determine this Agreement so far as the same relates to the administration and district giving such notice at the expiration of the first five years of the said period of ten years mentioned in Article Three by giving to the Telegraph Company twelve calendar months' notice in writing of their or its intention so to do and at the expiration of such notice the proportion of the said subsidy of 17,000*l.* payable by the administration or administrations giving such notice shall cease to be payable by it or by them to the Telegraph Company.

16. These presents are subject to ratification by the Parliaments of the United Kingdom the Cape Colony and Natal and to the approval of the said Agreement dated nineteenth February One thousand eight hundred and ninety-five made between the South African Republic of the one part and the Telegraph Company of the other part by the Volksraad of the South African Republic and if the same are not respectively ratified and approved within six months from the date hereof any of the parties to this Agreement may by notice in writing or by telegraph to the others of them rescind this Agreement and no party shall have any claim against any other or others of them under or in respect of any of the provisions hereof.

(3.) Treasury Minute dated 21st August, 1895.

My Lords have before them two Agreements, dated respectively the 9th and 10th July 1895, entered into—

1. By their Board, the Colonial Governments of the Cape of Good Hope and Natal, and the British South Africa Company, respectively, with the Eastern and South African Telegraph Company;

2. By their Board with the same Telegraph Company; providing for a reduction in the charges for telegrams between South Africa, certain places on the East Coast of Africa, Mauritius, and Seychelles on the one hand and Europe on the other.

The rates per word previously payable varied from 7*s.* 9*d.* to 8*s.* 11*d.* in the case of ordinary telegrams and from 5*s.* 9*d.* to 6*s.* 4*d.* in the case of Government telegrams, and the Telegraph Company has undertaken, under Agreement No. 1, to reduce the rates in the case of the South African traffic by both the East and West Coast routes to the rates specified in the Schedules annexed to that Agreement, which are approximately 5*s.* a word for ordinary, 2*s.* 6*d.* for Government, and 1*s.* 6*d.* for Press telegrams respectively.

Notwithstanding the date named in Clause 1 of the Agreement the reduction in the case of Government telegrams will, as matter of fact, take effect as from the 1st January 1895.

Agreement No. 2, which relates to places on the East Coast of Africa, &c., and is limited in its operation to the East Coast route, will also take effect in the case of Government telegrams as from 1st January 1895.

Her Majesty's Government, the Contracting Colonies, and the British South Africa Company have undertaken under Agreement No. 1 to grant as from December 1899 a subsidy, payable for ten years, of 17,000*l.* per annum, whereof the Imperial share will be 8,750*l.* per annum. As against this charge Her Majesty's Government and the other parties to the contract will become entitled during the last five years of the period to take a share (not exceeding 17,000*l.*) of any excess in the annual net receipts of the Telegraph Company from the South African traffic over and above the sum of 180,000*l.* Under Agreement No. 2 Her Majesty's Government will grant to the Telegraph Company an annual subsidy of 3,500*l.*, payable for ten years as from the 1st January 1900.

My Lords, having regard to the extent of the telegraphic business of the Government with South and East Africa, and to the saving which will accrue from the reduction in the charges for Government telegrams, consider that they are justified in asking Parliament to ratify the Agreements in question.

My Lords approve and direct that a copy of this Minute be presented to Parliament with copies of the Agreements accordingly.

REPORT of the COMPTROLLER AND AUDITOR GENERAL upon the TREASURY CHEST ACCOUNT for the Year 1893–94, prepared in pursuance of the Act 40 & 41 Vict. c. 45, s. 4.

THE Treasury Chest Fund Act of 1877 limited the balance of the assets above the liabilities of the Treasury Chest Fund to one million pounds. The Act of 1893 (56 and 57 Vict., c. 18) substituted for this amount "such sum, not less than seven "hundred thousand pounds and not exceeding one million pounds, as the Treasury by "Minute, laid before Parliament from time to time, direct," and further provided that whenever any reduction was made in the limit of the said balance, any excess above the reduced limit should be paid into the Exchequer. Reduction of Balance.

In accordance with the terms of this Act the Treasury issued a Minute, dated 26th February 1894, directing that the full reduction authorised by the Act should be made, whereupon the sum of three hundred thousand pounds was transferred to the Exchequer.

2. I have to observe that the total balances in the hands of Treasury Chest Officers abroad on the 31st March 1894, show a net decrease of nearly 5,000*l.* Treasury Chest Officers, Reduction of Balance.

3. The net profit upon this service in the year 1892–93, amounting to 14,787*l.* 3*s.* 6*d.*, has been paid over to the Exchequer. Net Profit, 1892–93.

4. The net profit of the Treasury Chest in the year 1893–94 has been 9,213*l.* 13*s.* 3*d.*, a result mainly due to transactions at Gibraltar, where an arbitrary rate of 25.22 pesetas to the £. has been in force for a considerable time. I, however, understand that from the 1st of April 1894 this obsolete rating ceased, and that in future there will be an official rating fixed at the beginning of each quarter on the basis of the market rate during the preceding quarter. Net Profit, 1893–94.

C. L. Ryan,
Comptroller General of Her Majesty's Exchequer,
and Auditor General of Public Accounts.
